

Lithologic Log Tifton Maintenance Yard Test Hole

	0-5	red clayey sd (fill)
	5-8	black fine sand
	8-11.5	Brownish red clayey sd
	11.5-17	Brown clayey sd sandy clay grades down to tan brick red clayey sd - sdy clay
clayey sd & sdy clay	17-23 1/2	lt grey ^{orange tan} clayey sd + sdy clay
	23 1/2 - 46	lt grey to red dense clayey sd w/ indurated layers
	46-50	lt grey rock wt grades down into sdy clay
	50-56	gr- ^{tan} fine to coarse sandy clay
	56-58	Grey tan clay
	58-69	light grey clayey sd to sdy clay
	69-79	greenish alternating layers of greenish fine sd and green clayey sd to sdy clay
Interbedded sd/silt/clay	79-91	^{-tan} brown silty clay / clayey silt
wet	91-92	Brown fine sd
	92-96	tan-grey silt
Clay	96-105	grey clay
	105-115 1/2	brown-tan fine sd + clayey sd + silt
wet	115 1/2-118	grey fine silty sand
Interbedded silt/sd/sd clay	118-120	tan fine sand
	120-124	grey-tan clayey sd to sdy clay
wet	124-126	fine to med sand
	126-128	cemented sand Brown silt
Organic	133-141	Dark grey organic rich clay (base has carbonds)
	141-145	White clay - marl? lime mud

	145-156	green clay w/ phosphatic nodules + greenish-white clay
Grnd Dk grey clays	156-163	grey clay w/ lime nodules
	163-166	dark grey silty clay w/ thin silt beds
	166-167	white-grey LS + green silt
	167-17B	dk grey silty clay w/ white carbonate (reworked greenish frags)
	171	
	173-188	white silty clay w/ layers of LS + greenish bioturbated? zones. + calcareous concretions.
Indurated clayey sd + LS	188-191	cemented clayey sd + reworked green clay + irregular clasts
	[Base] 191-202	Interbedded ls, green silty clay, white clay
	202-207	pure white micritic LS
	207-208	white ^{silty} clay
Fossiliferous LS	208-223	Fossiliferous LS + reworked material
	223-233	dk green ^{siltstone} siltstone w/ zones of reworked material - large clasts, red limestone
	233-234	fossiliferous LS
br + green siltstone/SS/LS	234- 238	brown ^{+ green} siltstone / calcareous? with ^{nodules} zones layers of
	263	red limestone fine green SS w/ limestone reworked zones @ 244, 258
	263-268	clastic LS ^{w/ nodules} clastic with fragments of various sizes green clasts
LS	268-272	white to tan-white fine (micritic) LS
