

Remarks:

Cuttings poor. Much caving. Middle Eocene found in what is probably a Paleocene interval.

Tops (log depths)

0-60(?)	Post-Miocene (N/S 0-60)
60(?) - 268	Miocene
268-362	Oligocene
362-605	Upper Eocene
605-1185	Middle Eocene
1185-1430	Lower Eocene (?). No definite Lower Eocene fauna or lithology in cuttings.
1430-1708	Paleocene
1708-	Cretaceous
