

U.S. Geological Survey World Wide Web Information

The U.S. Geological Survey (USGS) invites you to explore an earth science virtual library of digital information, publications, and data. The USGS Internet World Wide Web sites offer an array of information that reflects scientific research and monitoring programs conducted in the areas of natural hazards, environmental resources, and cartography. This list provides gateways to access a cross section of the digital information on the USGS World Wide Web sites.

World Wide Web Sites

Primary Sites

U.S. Geological Survey Home Page
<http://www.usgs.gov>

Biological Resources Division Home Page
<http://www.nbs.gov>

Geologic Information Home Page
<http://geology.usgs.gov/>

National Mapping Information Home Page
<http://mapping.usgs.gov/>

Water Resources Information Home Page
<http://water.usgs.gov/>

Data and Information Sites

Biological Resources National Programs
