

LEGEND

Observed facts are shown in black; deductions in red. Strips of veins, axes of beds, faults, and geologic boundaries are shown on a datum plane 500 feet above sea.

- Mine gangways
  - Rock tunnels
  - Strike of coal veins on 500 foot datum plane
  - Axes of anticlines on 500 foot datum plane
  - Axes of synclines on 500 foot datum plane
  - Overthrusts on 500 foot datum plane
  - Normal fault
- Local subdivisions of the Puget formation
- Eb
  - Burnett formation
  - Ew
  - Wilkeson sandstone
  - Ec
  - Carbonado formation
- EOCENE

*Ag* Dip and strike of stratified rocks  
*St* Dip and strike of joint structure  
 Tunnel openings  
 Shafts  
 Borings

Coal beds Nos. IW, IIV & VW opened in S.E. 1/4 Sec. 10. See Vol. XV, Tenth Census Report, Plate XGII.

Scale 25000

Edition of Dec. 1899.

Geology by Bailey Willis.
