

LEGEND

SURFICIAL ROCKS

SHEET SYMBOL	SECTION SYMBOL	FORMATION
Prm	Prm	Reclaimed tide marsh
Plc	Plc	Columbia formation (later loam and gravel)
Pec	Pec	Columbia formation (earlier gravel and loam)

SEDIMENTARY ROCKS

SHEET SYMBOL	SECTION SYMBOL	FORMATION
Ni	Ni	Lafayette formation (gravel and loam)
Nc	Nc	Chesapeake formation (clay and fine sand)
Ep	Ep	Pamunkey formation (greenish marl)
Km	Km	Matawan formation (dark sand)
Kp	Kp	Potomac formation (sand and clay)

ANCIENT CRYSTALLINE ROCKS

SHEET SYMBOL	SECTION SYMBOL	FORMATION
Rgr	Rgr	Biotite granite
Rs	Rs	Soapstone and serpentine
Rgb	Rgb	Gabbro
Rmg	Rmg	Meta-gabbro
Rd	Rd	Diorite and meta-diorite (including hornblende granite and some meta-gabbro)
Rg	Rg	Granite-gneiss (including mica-gneiss, mica-schist and quartzitic granite)
Rc	Rc	Carolina gneiss (including mica-gneiss, mica-schist and quartzitic granite and diorite)

H.M. Wilson, Geographer in charge.
Triangulation by U.S. Coast and Geodetic Survey.
Topography by J.D. Hoffman, D.J. Howell, A.E. Murin, J.H. Jennings,
M. Hackert, W.M. Bearman, H. Munroe, A. Fike, R. Muldrow, W.J. Lloyd,
J.W. Thom, A.M. Walker, E.B. Clark, G.E. Hyde,
and U.S. Coast and Geodetic Survey.
Surveyed in 1885-86 and 95-97.

Edition of Oct. 1900.

Geology of sedimentary formations by N.H. Darton.
Geology of crystalline rocks by C.H. Williams and Arthur Keith.
Surveyed in 1893-1895.
