

**Chantelle**

**U.S. Department of the Interior  
U.S. Geological Survey**

**Chantelle is a hydrologist in the Surface Water Investigation Unit. She received her bachelor of science degree in environmental geology from the University of Kansas.**

A woman wearing a grey USGS baseball cap, a bright yellow high-visibility long-sleeved shirt with reflective stripes, and blue jeans is using a surveying instrument mounted on a yellow tripod. She is looking through the eyepiece of the instrument. The background consists of dry, tangled brush and a dirt embankment.

Chantelle—"I am passionate about my job because I get to collect and analyze data for the State that I grew up in. Every day is different, with a new challenge or problem to solve. Also, I get to spend many of my days outside, which is always a plus."
