

Base from U.S. Geological Survey, 1955

SCALE 1:24 000

Aeromagnetic survey flown 500 feet above ground,  
1959 by Peter Popenoe, and 1966 by E. P. Smith.  
Compilation supervised by F. P. Gilbert

EXPLANATION

- Magnetic contours  
Showing total intensity magnetic field of the earth in gammas relative to arbitrary datum. Hachured to indicate closed areas of lower magnetic intensity, dashed where data are incomplete. Contour interval 20 gammas
- Location of measured maximum or minimum intensity within closed high or closed low
- Flight path  
Showing location and spacing of data

NOTE: AEROMAGNETIC CONTOURS ALONG THE NORTHERN BORDER OF THIS MAP REPRESENT REVISIONS TO THE CONTOURS ALONG THE SOUTHERN BORDER OF GP-432
