

EXPLANATION

Magnetic contours
Showing total intensity magnetic field of the earth in gamma units relative to arbitrary datum. Contours are solid lines, dashed lines indicate closed areas of lower magnetic intensity, dashed where data are incomplete. Contour intervals are 100, 500, 1000, 2000, 2500, 3500 and 5000 gamma.

Measured maximum or minimum intensity within closed high or closed low

Flight path
Showing location and spacing of data
