

Base by U.S. Geological Survey, 1966

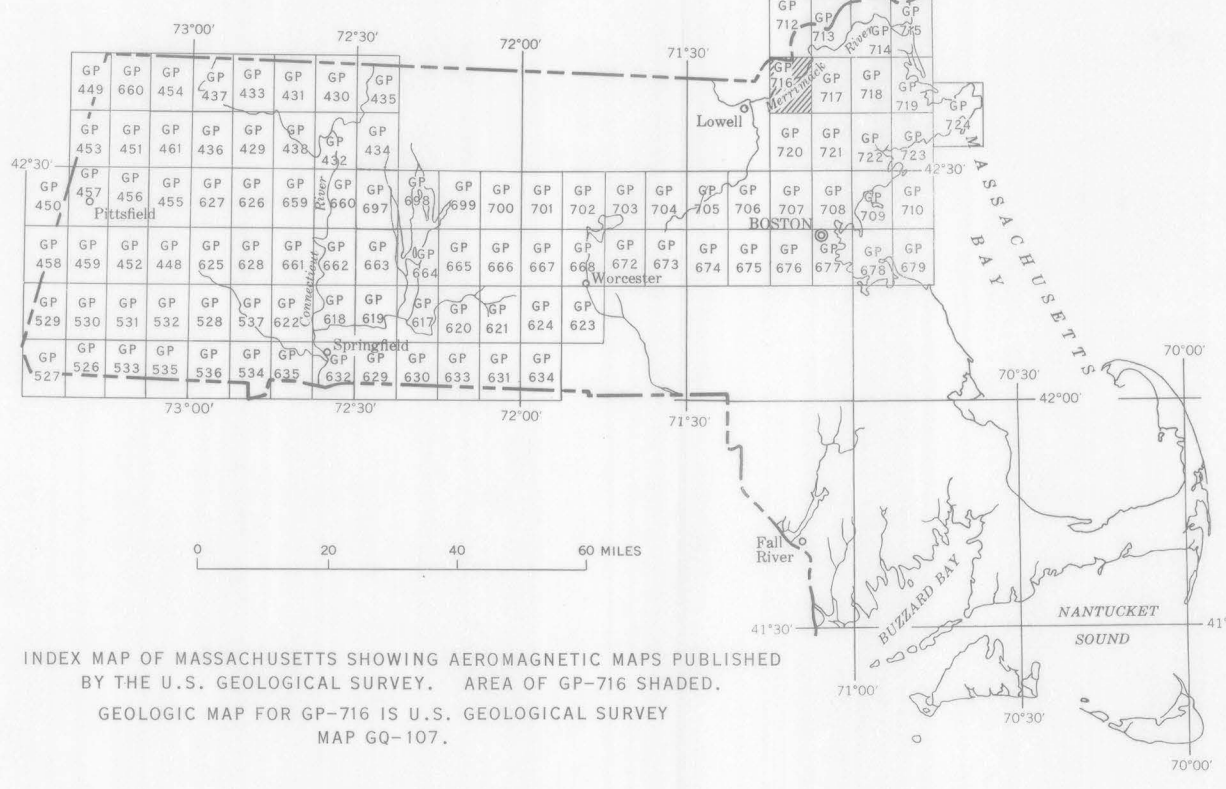

SCALE 1:24 000

Aeromagnetic survey flown and compiled by the U.S. Geological Survey. Flown at 400 feet above ground, 1968

EXPLANATION

-  Magnetic contours  
Showing total intensity magnetic field of the earth in gammas relative to arbitrary datum. Hachured to indicate closed areas of lower magnetic intensity, dashed where data are incomplete. Contour intervals are 20 and 100 gammas.
-  Measured maximum or minimum intensity within closed high or closed low
-  Flight path  
Showing location and spacing of data
