SIMS AND SOUTHWICK-SOUDAN QUAD., MINNESOTA 1:24,000

DEPARTMENT OF THE INTERIOR UNITED STATES GEOLOGICAL SURVEY

GEOLOGIC MAP OF THE SOUDAN QUADRANGLE, ST. LOUIS COUNTY, MINNESOTA

By P.K. Sims and D.L. Southwick

Prepared in cooperation with the MINNESOTA GEOLOGICAL SURVEY

GEOLOGIC MAP SYMBOLS COMMONLY USED ON MAPS OF THE UNITED STATES GEOLOGICAL SURVEY (Special symbols are shown in explanation)

	Contact—Dashed where approximately located; short dashed where inferred; dotted where concealed	Strike and dip of beds—Ball indicates top of beds known from sedimentary structures
⁴⁵	Contact—Showing dip; well exposed at triangle	Inclined ⊕ Horizontal Vertical +0 Overturned
	Fault—Dashed where approximately located; short dashed where inferred; dotted where concealed	Strike and dip of foliation Control Strike and dip of cleavage
	Fault, showing dip—Ball and bar on downthrown side	Inclined
		Bearing and plunge of lineation
	Normal fault—Hachured on down- thrown side	/5_ Inclined ◆ Vertical ← Horizontal
		Strike and dip of joints
	Fault—Showing relative horizontal movement	40 Inclined - Vertical + Horizontal
	Thrust fault—Sawteeth on upper plate	Note: Planar symbols (strike and dip of beds, foliation or schistosity, and cleav- age) may be combined with linear
◆	Anticline—Showing direction of plunge; dashed where approximately located; dotted where concealed	symbols to record data observed at same locality by superimposed symbols at point of observation. Coexisting planar symbols are shown intersecting at point of observation.
	Asymmetric anticline—Short arrow indicates steeper limb	-
	Overturned anticline—Showing direction of dip of limbs	Shafts Vertical Inclined
•	Syncline—Showing direction of plunge; dashed where approximately located; dotted where concealed	Adit, tunnel, or slope → Accessible → Inaccessible
		× Prospect
	Asymmetric syncline—Short arrow indicates steeper limb	Quarry
	Overturned syncline—Showing direction of dip of limbs	Gravel pit
-	Monocline—Showing direction of plunge of axis	X Active X Abandoned Oil wells
→ ²⁰	Minor anticline—Showing plunge of axis	○ Drilling ◇ Shut-in ◇ Dry hole, ☆ Gas ◇ Show of gas abandoned
← 60	Minor syncline—Showing plunge of axis	● Oil Show of oil
