HYDROLOGIC UNIT MAP—1987
STATE OF ALASKA

COMPILED FROM THE GEOLOGICAL SURVEY ALASKA TOPOGRAPHIC MAPS
SCALE 1:250 000, AND OTHER OFFICIAL SOURCES
MODIFIED TRANSVERSE MERCATOR PROJECTION
SCALE 1:2 500 000
1 INCH EQUALS APPROXIMATELY 40 MILES

50 0 50 100 150 MILES
50 0 50 100 150 KILOMETRES
NATIONAL GEODETIC VERTICAL DATUM OF 1929

FOR SALE BY U.S. GEOLOGICAL SURVEY
FAIRBANKS, ALASKA 99701, DENVER, COLORADO 80225, OR RESTON, VIRGINIA 22092
1987

EXPLANATION
This map and accompanying table show Hydrologic Units that are basically hydrographic in nature. The Cataloging Units shown will supplant the Cataloging Units previously used by the U.S. Geological Survey in its Catalog of Information on Water Data (1966-72). The previous U.S. Geological Survey Catalog-Indexing System was by map number and letter, such as 49M. The boundaries as shown have been adapted from "The Catalog of Information on Water Data" (1972), "Water Resources Regions and Subregions for the National Assessment of Water and Related Land Resources" by the U.S. Water Resources Council (1970), "River Basins of the United States" by the U.S. Soil Conservation Service (1963,1970), "River Basin Maps Showing Hydrologic Stations" by the Inter-Agency Committee on Water Resources, Subcommittee on Hydrology (1961), and State planning maps.

The Regions, Subregions and Accounting Units are aggregates of the Cataloging Units. The Regions and Subregions are (1987) used for comprehensive planning and as a standard geographical framework for more detailed water and related land-resource planning. The Accounting Units are those (1987) in use by the U.S. Geological Survey for managing the National Water Data Network.

The limits of the exclusive economic zone of the United States are intended to be without prejudice to any negotiations with governments of neighboring countries or to any positions which have been or may be adopted respecting the limits of maritime jurisdiction in such areas.

HYDROLOGIC UNIT CODE

Region **190307102** Accounting Unit
Subregion Cataloging Unit

Regional Boundary

Subregional Boundary

Accounting Unit Boundary

Cataloging Unit Boundary
The Regional and Subregional Boundaries serve as Accounting Unit Boundaries as well as Cataloging Unit Boundaries except where discontinued at the International Boundary

The following table shows the Hydrologic Units for the State

Region	Subregion	Accounting Unit	Cataloging Unit
