

HYDROLOGIC UNIT MAP—1974 STATE OF IDAHO

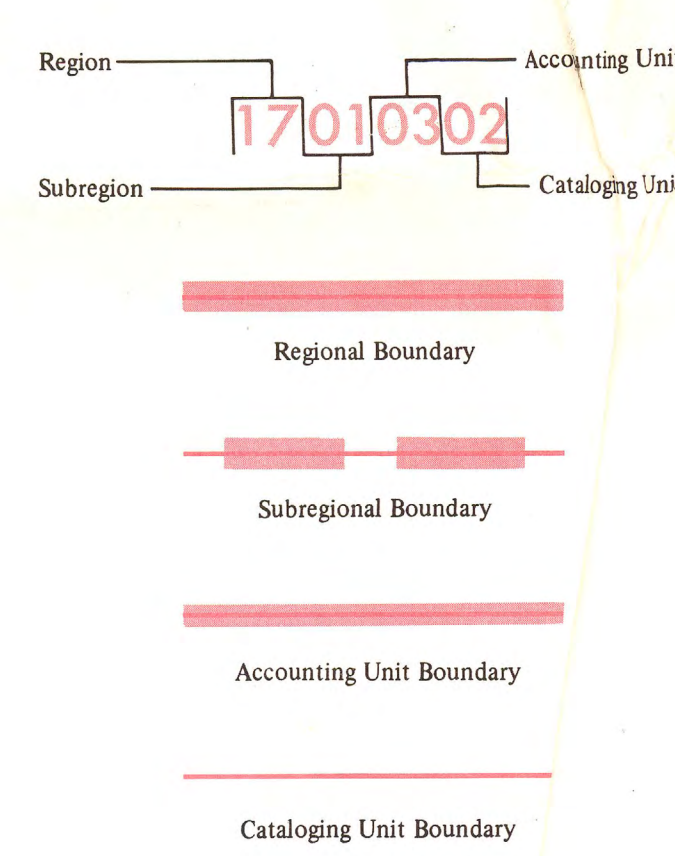

EXPLANATION

This map and accompanying table show Hydrologic Units that are basically hydrographic in nature. The Cataloging Units shown will replace the Cataloging Units previously used by the U.S. Geological Survey in its Catalog of Information on Water Data (1966-72). The previous U.S. Geological Survey Cataloging System was by map number and letter, such as 4904. The boundaries as shown here, have been adopted from "The Catalog of Information on Water Data" (1972). "Water Resources Regions and Subregions for the National Assessment of Water and Related Land Resources" by the U.S. Water Resources Council (1970). "River Basins of the United States" by the U.S. Soil Conservation Service (1961, 1970). "River Basin Maps Showing Hydrologic Stations" by the Inter-Agency Committee on Water Resources, Subcommittee on Hydrology (1961), and State planning maps.

The Political Subdivision Code has been adopted from "County and County Equivalents of the States of the United States" presented in Federal Information Processing Standards Publication 6-1, issued by the National Bureau of Standards (1973) in which each county or county equivalent is identified by a 2-character State code and a 3-character county code.

The Regions, Subregions and Accounting Units are aggregates of the Cataloging Units. The Regions and Subregions are currently (1974) used by the U.S. Water Resources Council for comprehensive planning, including the National Assessment, and as a standard geographical framework for more detailed water and related land-resources planning. The Accounting Units are those currently (1974) in use by the U.S. Geological Survey for managing the National Water Data Network.

HYDROLOGIC UNIT CODE

The following table shows the Hydrologic Units for the State

Region	Subregion	Accounting Unit	Cataloging Unit
16 Great Basin	01	01	01, 02, 03, 04
		02	05
		03	01, 04, 05
		04	01, 02, 03, 04, 05, 06, 08
17 Pacific Northwest	04	01	01, 02, 03, 04, 05, 06, 07
		02	04, 05
		03	01, 02, 03, 04, 05, 06, 07
		04	08, 09, 10, 11, 12, 13, 14
18 Rockies	05	01	01, 02, 03, 04, 05, 06, 07
		02	08, 09, 10, 11, 12, 13, 14
		03	01, 02, 03, 04, 05, 06, 07
		04	08, 09, 10

The Regional and Subregional Boundaries used Accounting Units as well as Cataloging Units, except where designated at the Internal Boundary.

POLITICAL SUBDIVISION CODE

079
County or County Equivalent

The State code for Idaho is 16.
The code is not shown on maps.

Compiled, edited, and published by the Geological Survey, 1927 North American datum
Lambert conformal conic projection based on standard parallels 37° and 45°

- LEGEND
- State capital
 - County seat
 - City, town, village, or locality
 - Scheduled service airport
 - Build-up areas shown for towns over 5,000 population

SOURCE DATA
