

HYDROLOGIC UNIT MAP—1974 STATE OF UTAH

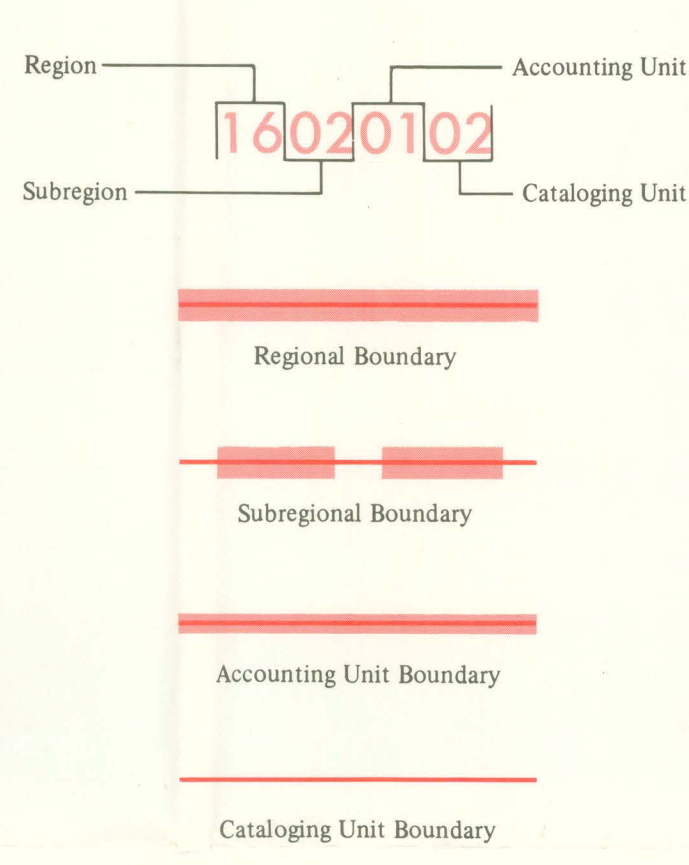

EXPLANATION

This map and accompanying table show Hydrologic Units that are basically hydrographic in nature. The Cataloging Units shown will supplant the Cataloging Units previously used by the U.S. Geological Survey in its Catalog of Information on Water Data (1966-72). The previous U.S. Geological Survey Catalog-Indexing System was by map number and letter, such as 49M. The boundaries as shown have been adapted from "The Catalog of Information on Water Data" (1972), "Water Resources Regions and Subregions for the National Assessment of Water and Related Land Resources" by the U.S. Water Resources Council (1970), "River Basins of the United States" by the U.S. Soil Conservation Service (1963, 1970), "River Basin Maps Showing Hydrologic Stations" by the Inter-Agency Committee on Water Resources, Subcommittee on Hydrology (1961), and State planning maps.

The Political Subdivision Code has been adopted from "Counties and County Equivalents of the States of the United States" presented in Federal Information Processing Standards Publication 6-2, issued by the National Bureau of Standards (1973) in which each county or county equivalent is identified by a 3-character State code and a 3-character county code.

The Regions, Subregions and Accounting Units are aggregates of the Cataloging Units. The Regions and Subregions are currently (1974) used by the U.S. Water Resources Council for comprehensive planning, including the National Assessment, and as a standard geographical framework for more detailed water and related land-resources planning. The Accounting Units are those currently (1974) in use by the U.S. Geological Survey for managing the National Water Data Network.

HYDROLOGIC UNIT CODE

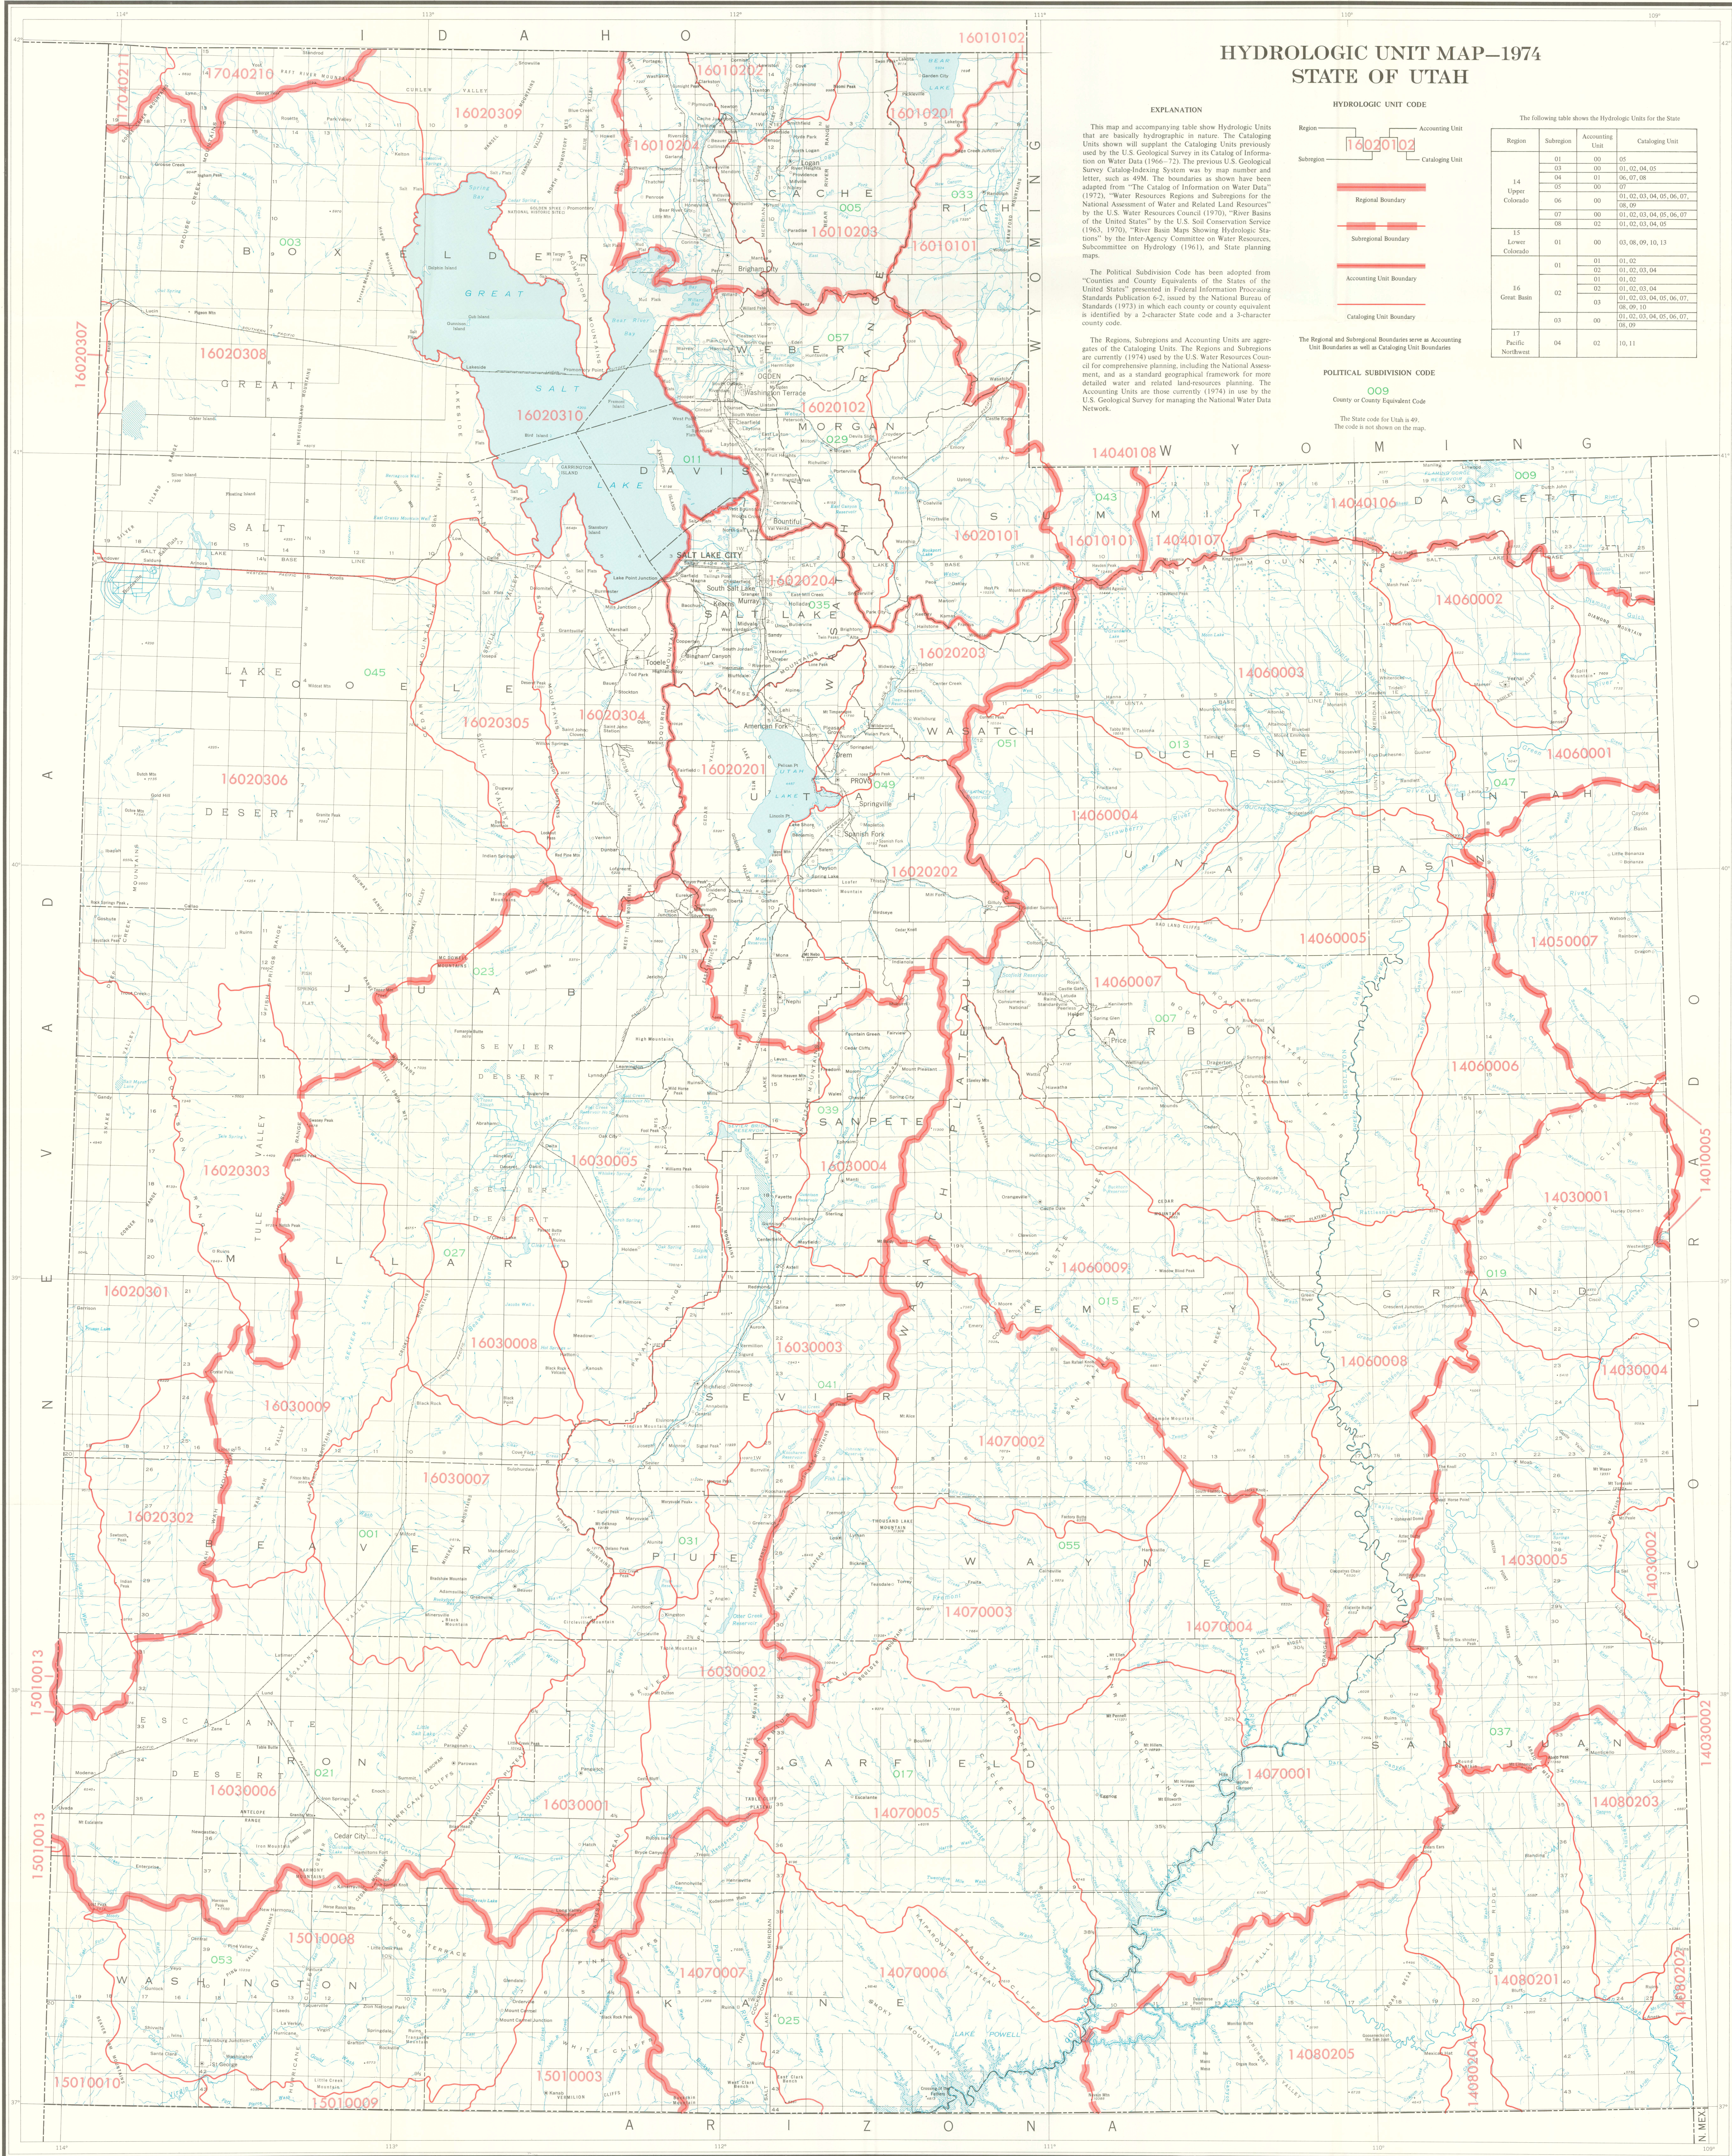

The following table shows the Hydrologic Units for the State

Region	Subregion	Accounting Unit	Cataloging Unit
14 Upper Colorado		01	00
		03	00
		04	01
		05	00
		06	00
15 Lower Colorado		07	00
		08	02
		09	02
16 Great Basin		01	01
		02	01
		03	01
		04	01
17 Pacific Northwest		01	01
		02	01

The Regional and Subregional Boundaries serve as Accounting Unit Boundaries as well as Cataloging Unit Boundaries

POLITICAL SUBDIVISION CODE

County or County Equivalent Code
The State code for Utah is 49.
The code is not shown on the map.

SOURCE DATA
U. S. Dept. of the Interior—Geological Survey, topographic maps
U. S. Dept. of the Interior—A. S. U. S. Geological Survey
U. S. Dept. of Commerce—Bureau of Public Roads maps

BASE MAP
Derivative modified 1974

Scale 1:500,000
1 inch equals approximately 8 miles

Datum is mean sea level
Compiled, edited, and published by the Geological Survey, 1974 North American datum
Lambert conformal conic projection based on standard parallels 37° and 45°

LEGEND
State capital
County seat
City, town, or village
Corporate boundary shown for towns over 2,500 population

POPULATION KEY
SALT LAKE CITY
OGDEN
Cedar City
Vernal
Newman

For sale by U.S. Geological Survey
Denver, Colo. 80225 and Reston, Va. 22092, price \$1.25
5,000 to 25,000
2,500 to 5,000
Less than 2,500
Population indicated by size of letters
COMPILED IN 1958
EDITION OF 1969

UTAH
