Liberian American—Swedish Minerals Company

FOLIO OF THE SANOKOLE QUADRANGLE, LIBERIA MAP I-774-D

GEOLOGIC MAP SYMBOLS

COMMONLY USED ON MAPS OF THE UNITED STATES GEOLOGICAL SURVEY (Special symbols are shown in explanation)

	Contact — Dashed where approximately located; short dashed where inferred; dotted where concealed	Strike and dip of beds — Ball indicates top of beds known from sedimentary structures
	Contact — Showing dip; well exposed at triangle	→ Inclined ⊕ Horizontal → Vertical → Overturned
	Fault - Dashed where approximately located; short dashed where inferred; dotted where concealed	Strike and dip of foliation 20 Inclined Vertical Horizontal Strike and dip of cleavage
	Fault, showing dip — Ball and bar on downthrown side	Bearing and plunge of lineation
	Normal fault — Hachured on downthrown side	15 Inclined ◆ Vertical ←→ Horizontal Strike and dip of joints
	Fault — Showing relative horizontal movement	40 Inclined Vertical Horizontal Note: planar symbols (strike and dip of beds,
	Thrust fault – Sawteeth on upper plate	foliation or schistosity, and cleavage) may be combined with linear symbols to record data observed at same locality by superimposed
	Anticline — Showing direction of plunge; dashed where approximately located; dotted where concealed	symbols at point of observation. Coexisting planar symbols are shown intersecting at point of observation.
	Asymmetric anticline — Short arrow indicates steeper limb	
	Overturned anticline - Showing direction of dip of limbs	Shafts Vertical p Inclined
	Syncline - Showing direction of plunge; dashed where approximately located; dotted where concealed	Adit, tunnel, or slope Accessible Accessible x Prospect
	Asymmetric syncline — Short arrow indicates steeper limb	Quarry
	Overturned syncline - Showing direction of dip of limbs	Gravel pit
	Monocline – Showing direction of plunge of axis	X Active X Abandoned Oil well
-> → ²⁰	Minor anticline - Showing plunge of axis	o Drilling ∳ Shut-in ∳ Dry hole ☆ Gas
-€→ ⁶⁰	Minor syncline — Showing plunge of axis	● Oil ♦ Show of oil
