QUATERNARY GEOLOGIC MAP OF THE LAKE ERIE 4° × 6° QUADRANGLE, UNITED STATES AND CANADA

State and Province compilations by David S. Fullerton, William R. Cowan, William D. Sevon, Richard P. Goldthwait, William R. Farrand, Ernest H. Muller, Robert E. Behling, and Jay A. Stravers

Edited and integrated by David S. Fullerton and Gerald M. Richmond

QUATERNARY GEOLOGIC ATLAS OF THE UNITED STATES

SOURCES OF INFORMATION

GREAT LAKES

MICHIGAN

U.S. Department of Agriculture, published and unpublished soil survey maps of individual counties.
Unpublished map information contributed by D. F. Eschman, Howard Sherzer, and W. A. Burgis.

NEW YORK

Hollands, G. S., 1975, Surficial geology of the Colden quadrangle, western New York: Amherst, University of Massachusetts, M.S. thesis.
———, 1980, Late Wisconsin stratigraphy of the upper Cattaraugus Basin: Friends of the Pleistocene, Eastern Section, Rensselaer Polytechnic Institute, Troy, New York, Guidebook.
U.S. Department of Agriculture, published soil survey maps of individual counties.

OHIO

Forsyth, J. L., 1956, Glacial geology of Logan and Shelby Counties, Ohio: Columbus, Ohio State University, Ph.D. dissertation, 207 p.

Fullerton, D. S., 1974, Multiple tills near Galena, Delaware County, Ohio: Geological Society of America Abstracts with Programs, v. 6, no. 6, p. 509.

Fullerton, D. S., and Groenewold, G. H., 1974, Quaternary stratigraphy at Garfield Heights (Cleveland), Ohio—Additional observations: Geological Society of America Abstracts with Programs, v. 6, no. 6, p. 509-510.

______ 1964, Soils and their parent geologic materials in parts of the unglaciated Allegheny Plateau, upper Ohio Valley, as interpreted from a pipeline excavation: Ohio Journal of Science, v. 64, p. 385-400.

Muskopf, John, 1973, Studies of till from Kelley's Island: Columbus, Ohio State University, senior thesis, 18 p.

Unpublished manuscripts and maps, Ohio Geological Survey:

Carney, Frank, 1913, Quaternary geology of the Cleveland district described in handwritten text on reverse sides of topographic quadrangles.

1917, Manuscript and notes on the beach ridges of the glacial lakes, 162 p.

1953, Supplement to manuscript and notes on the beach ridges of the glacial lakes, 16 p.

Totten, S. M., Glacial geology of Medina County, Ohio, scale 1:62,500.

Glacial geology of Lorain County, Ohio, scale 1:62,500.

Totten, S. M., and White, G. W., Glacial geology of Mahoning County, Ohio, scale 1:62,500.

ONTARIO

—— 1964, Pleistocene geology of the St. Thomas area (west half), southern Ontario: Ontario Department of Mines Geological Survey Preliminary Map P.238, scale 1:50,000.

Feenstra, B. H., 1972a, Quaternary geology of the Niagara area, southern Ontario: Ontario Division of Mines Geological Series Preliminary Map P.764, scale 1:50,000.

———1972b, Quaternary geology of the Welland area, southern Ontario: Ontario Division of Mines Geological Series Preliminary Map P.796, scale 1:50,000.

Ontario Soil Survey, published soil survey reports of individual counties.

Terasmae, Jaan, Karrow, P. F., and Dreimanis, Aleksis, 1972, Quaternary stratigraphy and geomorphology of the eastern Great Lakes region of southern Ontario: International Geological Congress, 24th session, Montreal, Quebec, Guidebook to field excursion A42, 75 p.

1972b, Quaternary geology of the Windsor-Essex area (eastern part), southern Ontario: Ontario Department of Mines and Northern Affairs Geological Series Preliminary Map P.750, scale 1:50,000.

PENNSYLVANIA

Muller, E. H., 1977, Quaternary geology of New York, Niagara Sheet: New York State Museum and Science Service, Map and Chart Series no. 28, scale l:250,000.

U.S. Department of Agriculture, published soil survey maps of individual counties.

----- 1971, Thickness of Wisconsinan tills in Grand River and Killbuck lobes, northeastern Ohio and northwestern Pennsylvania, in Goldthwait, R. P., and others, editors, Till—a symposium: Columbus, Ohio State University Press, p. 149-163.
