

Regional magnetic anomaly map of the St. Louis 30' X 60' quadrangle, and generalized cross sections. Map shows major structural features, pinch-out lines related to major unconformities, and locations of recent earthquake epicenters. Approximate positions of cross sections and selected drill holes (solid dots along cross-section traces) are also indicated. On cross sections: ob, overburden (includes loess and surficial deposits); to, total depth; t, toward observer; a, away from observer; vertical exaggeration x 42.

BEDROCK GEOLOGIC MAP OF THE ST. LOUIS 30' X 60' QUADRANGLE, MISSOURI AND ILLINOIS
