

M(200)
A3665

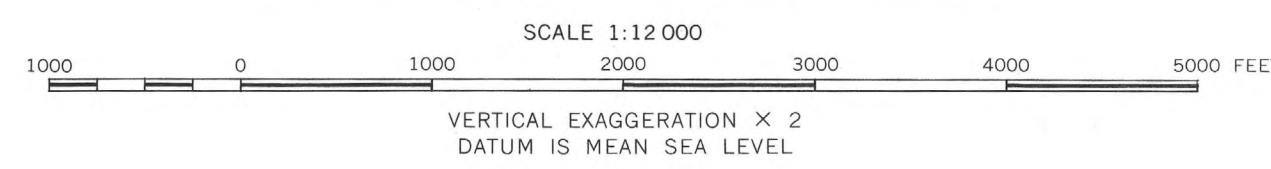

Sandstone is shown in white, mudstone in black. Sections show the uppermost sandstone layer in the Salt Wash member of the Morrison formation and the units above it. Geologic information was derived from diamond drill holes. Vertical lines above sections show the positions of drill holes; solid lines show holes that lie in the line of section, broken ones show holes that are projected into the line of section. See sheet 1 for lines of section.

GEOLOGIC SECTIONS IN WESTERN DISAPPOINTMENT VALLEY AREA, SLICK ROCK DISTRICT, SAN MIGUEL COUNTY, COLORADO

By
William B. Rogers and Daniel R. Shawe

1962

Colorado (Western Disappointment Valley Area). Uranium. 1:12,000.
