

Base from U.S. Geological Survey, Poplar Bluff,
1957-67; Rolla, 1954-69; St. Louis, 1963-69;
1:250,000

SCALE 1:250,000
0 5 10 15 20 25 MILES
0 5 10 15 20 25 KILOMETERS

Isopachs drawn in 1977

EXPLANATION

- CONTACT--Shows area of outcrop of pre-Bonneterre formations (patterned); Dashed where approximately located
 - FAULT--Bar and ball on downthrown side
 - ISOPACH--Dashed where inferred. Contour interval 50 ft
 - DRILL HOLES--Locations of some holes omitted to avoid disclosure of proprietary information
- NOTE: To convert to meters use the following formula: 50 ft = 15.2 m.

LAMOTTE SANDSTONE

PRELIMINARY ISOPACH MAPS OF THE CAMBRIAN LAMOTTE SANDSTONE AND CAMBRIAN BONNETERRE FORMATION
ROLLA 1° X 2° QUADRANGLE, MISSOURI
