DEPARTMENT OF THE INTERIOR
UNITED STATES GEOLOGICAL SURVEY

EXPLANATION
- Limestone
- Illusions
- Lime Mud
- Basalt/Carbonaceous Shale
- Coal
- Maumee/Claystone
- Conglomerate
- No Data

- Location
- Number of drill hole
- Zone number shown on geologic map
- Surface elevation
- Total thickness in feet of net coal (in feet)
- Net coal thickness uncertain
- Total depth (in feet) drilled
- Coal bed less than 1 foot thick

Notes:
- Drill holes 1-13 with Illusions indicated were cored by B. E. Law. Bureau of Land Management (1977) and were not geologically logged. Drill holes with no Illusions indicated were geologically logged by the U.S. Geological Survey (Law, 1977) and were not cored. Drill hole NF was interpreted from information only.
