DATA SOURCES, LAKE ONTARIO
SHEET 2 OF 2

LAKE ONTARIO GRAVITY

Diment, W.H., Urban, T.C., Mequid, F., and Revetta, F.A., 1974, Speculations about the Precambrian basement of New York and Pennsylvania from gravity and magnetic anomalies [abs.]: Geological Society of America, Abstracts with Programs, v. 6, no. 7, p. 711.

Canada, Department of Energy, Mines and Resources, 1971a, Gravity Map Series no. 133 (Toronto-Ottawa): Earth Physics Branch, Ottawa, Canada, 1:500,000.

Canada, Department of Energy, Mines and Resources, 1971b, Gravity Map Series no. 137 (Windsor-Toronto): Earth Physics Branch, Ottawa, Canada, 1:500,000.

Diment, W.H., 1977, Written communication: unpublished gravity data on file at U.S. Geological Survey, Branch of Atlantic-Gulf of Mexico Marine Geology, Woods Hole, Mass.

Mequid, F. and O'Hara, N.W., 1975, Lake Ontario gravity and magnetic observations [abs.], in Eighteenth Conference on Great Lakes Research, Abstracts, Albany, N.Y., 1975: International Association for Great Lakes Research, p. 42.

O'Hara, N.W., Mequid, F., and Hinze, W.J., 1974, Gravity and magnetic observations from the Lake Erie and Lake Ontario region [abs.]: Geological Society of America, Abstracts with Programs, v. 6, no. 7, p. 896.

Revetta, F.A., 1970, A regional gravity survey of New York and eastern Pennsylvania: Rochester, N.Y., Univ. of Rochester, unpublished Ph.D. thesis, 229p.

Revetta, F.A., and Diment, W.H., 1971, Simple Bouguer gravity anomaly map of western New York: New York State Museum and Science Service, Map and Chart Series no. 17, 1:250,000.

LAKE ONTARIO MAGNETICS

Diment, W.H., 1977, Written communication: unpublished magnetic data on file at U.S. Geological Survey, Branch of Atlantic-Gulf of Mexico Marine Geology, Woods Hole, Mass.

Diment, W.H., Urban, T.C., Mequid, F., and Revetta, F.A., 1974, Speculations about the Precambrian basement of New York and Pennsylvania from gravity and magnetic anomalies [abs.]: Geological Society of America, Abstracts with Programs, v. 6, no. 7, p. 711.

Hutchinson, D.R., 1977, Structure and surficial geology of the central Lake Ontario Basin: Toronto, Canada, Univ. of Toronto, unpublished M.S. thesis, 119p.

Mequid, F. and O'Hara, N.W., 1975, Lake Ontario gravity and magnetic observations [abs.], in Eighteenth Conference on Great Lakes Research, Albany, N.Y., 1975: International Association for Great Lakes Research, p. 42.

O'Hara, N.W., Mequid, F., and Hinze, W.J., 1974, Gravity and magnetic observations from the Lake Erie and Lake Ontario Region [abs.]: Geological Society of America, Abstracts with Programs, v. 6, no. 7, p. 896.

LAKE ONTARIO SAMPLING

Anderson, T.W., 1974, The chestnut pollen decline as a time horizion in lake sediments in eastern North America: Canadian Journal of Earth Sciences, v. 11, p. 678-685.

Anderson, T.W., and Lewis, C.F.M., 1975, Acoustic profiling and sediment coring in Lake Ontario, Lake Erie and Georgian Bay: Geological Survey of Canada Paper 75-1, pt. A, p. 375-376.

Bannerman, R.T., Armstrong, D.E., Holdren, G.C., and Harris, F.R., 1974, Phosphorus mobility in Lake Ontario sediments, in Proceedings Seventeenth Conference on Great Lakes Research, Hamilton, Canada, 1976: International Association for Great Lakes Research, p. 158-178.

Bell, J.B., and Dutka, B.J., 1972, Microbial examination of Lake Ontario sediments, I. Distribution of aerobic and anaerobic hetrotrophs in several Lake Ontario sediments, in Proceedings Fifteenth Conference on Great Lakes Research, Madison, Wisc., 1972: International Association for Great Lakes Research, p. 1-8.

Cronan, D.S. and Thomas, R.L., 1970, Ferromanganese concretions in Lake Ontario: Canadian Journal of Earth Sciences, v. 7, p. 1346-1349.

Damiani, V., Morton, T.W., and Thomas, R.L., 1973, Freshwater ferromanganese nodules from the Big Bay section of the Bay of Quinte, northern Lake Ontario, in Proceedings Sixteenth Conference on Great Lakes Research, Huron, Ohio, 1973: International Association for Great Lakes Research, p. 397-403.

Duthie, H.C., and Sreenivasa, M.R., 1971, Evidence for the eutrophication of Lake Ontario from sedimentary diatom succession, in Proceedings Fourteenth Conference on Great Lakes Research, Toronto, Canada, 1971: International Association for Great Lakes Research, p. 1-13.

Farmer, J.G., 1978, The determination of sedimentation rates in Lake Ontario using the Pb 210 dating method: Canadian Journal of Earth Sciences, v. 15, p. 431-437.

Fitchko, J., and Hutchinson, T.C., 1975, A comparative study of heavy metal concentrations in river mouth sediments around the Great Lakes: Journal of Great Lakes Research, v. 1, p. 46-78.

Gray, C.B.J., and Kemp, A.L.W., 1970, A quantitative method for the determination of chlorin pigments in the Great Lakes sediments, in Proceedings Thirteenth Conference on Great Lakes Research, Buffalo, N.Y., 1970: International Association for Great Lakes Research, p. 242-249.

Johnston, L.M., 1977, Geochemistry of selected sediment cores from the Kingston Basin-Upper St. Lawrence River area [abs., Kingston, Canada, Queens University, unpublished Ph.D. thesis], in Twentieth Conference on Great Lakes Research, Ann Arbor, Mich., 1977: International Association for Great Lakes Research.
