쳐이로 관련된 이론을

The San Jacinto Wilderness Area is a rugged, mountainous region in the eastern part of San Diego County, California, and is known for its panoramic views of the Colorado River and the San Jacinto Mountains. The wilderness is part of the San Jacinto Mountains, which are part of the Transverse Ranges, and is located in the southern part of the state of California.

The San Jacinto Wilderness Area is managed by the U.S. Forest Service and is the largest wilderness area in California. It covers approximately 115,000 acres and includes several peaks, including San Jacinto Peak, which is the highest peak in the San Jacinto Mountains and the second highest peak in the state of California.

The San Jacinto Wilderness Area is known for its diverse plant and animal life, including several endangered species. The area is also popular with hikers and nature enthusiasts, and it offers opportunities for camping, backpacking, and wildlife watching.

For more information, contact the U.S. Forest Service, San Jacinto Ranger District, P.O. Box 11300, Palm Springs, CA 92262, or visit the website at http://www.fs.fed.us/r9/sanjaci.
