OPENING SESSION			
Introductory Remarks—Albert L. Cochran....	1	Surface Runoff and Erosion as Affected by Soil Ripping—E. J. Dortignac and W. C. Hickey, Jr.	156
Welcoming Remarks—W. Alton Bryant.....	1	A Summary of the Work of the Inter-Agency Sedimentation Project—Fred W. Witzigman	166
Reflections on First Federal Sedimentation Conference—Carl B. Brown.....	1	Discussion—Symposium 1.....	177
Special Message—E. W. Lane.....	4	SYMPOSIUM 2.—SEDIMENT IN STREAMS	
Keynote Address—L. C. Gottschalk.....	5	Introduction.....	185
Review of Research Activities in Sedimentation—Vito Vanoni.....	8	Sediment Diversions Through Distributary Channels Normal to a Major River—G. A. Price, Jr.....	185
Educational Needs and Opportunities in the Sedimentation Field—M. Gordon Wolman...	13	A Study of Variables Affecting Flow Characteristics and Sediment Transport in Alluvial Channels—D. B. Simons and E. V. Richardson.....	193
SYMPOSIUM 1.—LAND EROSION AND CONTROL			
Introduction.....	18	Deep River Velocity and Sediment Profiles and the Suspended Sand Load—F. B. Toffaleti...	207
Erosion and Its Control on Agricultural Lands—John W. Roehl.....	18	Calculation of Suspended Load Discharge from Velocity and Concentration Parameters—Norman H. Brooks.....	229
Some Interpretations of Sediment Sources and Causes, Pacific Coast Basins in Oregon and California—Henry W. Anderson and James R. Wallis....	22	A Tentative Classification of Alluvial River Channels—S. A. Schumm [Not submitted for publication]	
Residential Construction and Sedimentation at Kensington, Md.—Harold P. Guy.....	30	Effect of Temperature on Riverbed Configuration: Its Possible Stage-Discharge Implications—W. C. Carey.....	237
Factors Related to Gully Growth in the Deep Loess Area of Western Iowa—C. E. Beer and H. P. Johnson.....	37	Methods and Their Suitability for Determining Total Sediment Quantities—John R. Sheppard.....	272
Logging and Erosion on Rough Terrain in the East—Howard W. Lull and Kenneth G. Reinhart....	43	Sediment Control at a Headworks Using Guide Vanes—E. J. Carlson and P. F. Enger.....	287
Sediment Yields from Small Watersheds Under Various Land Uses and Forest Covers—S. J. Ursic and Farris E. Dendy.....	47	Some Aspects of the Problem of Scour at Bridge Crossings—Emmett M. Laursen.....	304
Effect of Highway Construction and Maintenance on Stream Sediment Loads—W. E. Bullard..	52	Discontinuous Depth-Discharge Relations for Sand-Channel Streams and Their Effect on Sediment Transport—David R. Dawdy.....	309
Sedimentation After Logging Road Construction in a Small Western Oregon Watershed—R. L. Fredricksen.....	56	Influence of Secondary Flow on Local Scour at Obstructions in a Channel—Walter L. Moore and Frank D. Masch.....	314
Effects of Watershed Characteristics on Reservoir Sediment Deposition—Roger L. Corinth.....	59	Laboratory Study of an Alluvial Stream at Constant Discharge—John F. Kennedy and Norman H. Brooks.....	320
Building a Nonlinear Sediment Yield Model—Roger P. Betson.....	65	Spiral Motion, Sediment Transport, and River Development—William F. Tanner.....	330
Land Use and Ecological Factors in Relation to Sediment Yields—Otis L. Copeland, Jr....	72	Channel Design for Modified Sediment Regime Conditions on the Arkansas River—E. B. Madden.....	335
Seasonal Debris Movement from Steep Mountainside Slopes in Southern California—Jay S. Krammes.....	85	Channel Rectification Structures—D. C. Bondurant.....	353
Function and Significance of Wind in Sedimentology—W. S. Chepil.....	89	The Rio Grande Comprehensive Plan in New Mexico and Its Effects on the River Regime Through the Middle Valley—Robert C. Woodson and J. T. Martin.....	357
Causes of Variation in Runoff and Sediment Yield from Small Drainage Basins in Western Colorado—Gregg C. Lusby.....	94	Methods and Criteria for Bank Protection on the Lower Colorado River—Frank K. Illk.....	366
The Role of the Large Storm as a Sediment Contributor—Robert F. Piest.....	98	Design of Stable Channels in Erodible Materials—Paul D. Doubt.....	373
Geology in Sediment Delivery Ratios—Sam B. Maner.....	108	Criteria and Methods for Use of Check Dams in Stabilizing Channel Banks and Beds—W. R. Ferrell and W. R. Barr.....	376
Gully Control Methods in Iowa—Paul Jacobson	111	Bank Stabilization of Mississippi River Between the Ohio and Missouri Rivers—A. J. Tiefenbrun.....	387
Sediment Reduction Through Watershed Rehabilitation—E. L. Noble.....	114	Downstream Pattern of Riverbed Scour and Fill—W. W. Emmett and Luna B. Leopold	399
Emergency Measures to Control Erosion After a Fire on the San Dimas Experimental Forest—R. M. Rice, R. P. Crouse, and E. S. Corbett..	123	Republican River Channel Deterioration—W. L. Northrop.....	409
Vegetative Control of Streambank Erosion—Donald A. Parsons.....	130	Degradation Study of the Middle Mississippi River, Vicinity of St. Louis, Mo.—T. F. Maher.....	424
Some Aspects of Fluvial Morphology Influencing Investigations of Channel Stability—Elliott M. Flaxman.....	136	Effect of a River Constriction—Sam Shulits...	431
Suspended Sediment Concentrations in a Michigan Trout Stream as Related to Watershed Characteristics—W. David Striffler.....	144	Development of Oahe Discharge Channel—A. S. Harrison [Not submitted for publication]	
Measurements of the Shear Resistance of Cohesive Sediments—Frank D. Masch, William H. Espey, Jr., and Walter L. Moore..	151		

	Page		Page
Some Economic Considerations in River Control Work — Paul A. Oliver.....	442	Channel Depth as a Factor in Estuarine Sedimentation — H. B. Simmons.....	722
Sediment Deposits on the Cone Area of Big Sand Creek, at Valley Hill, Miss. — Fred Bayley, Jr.....	449	Sediment Problems of River Development in Deltaic Regimes — C. A. Peyronnin, Jr.....	730
Improvement of the Navigability of the Columbia River by Dredging and Constriction Works — G. E. Hyde and Ogden Beeman.....	454	Sediment Discharge to the Coast as Related to Shore Processes — G. M. Watts.....	738
Channel Armoring Below Fort Randall Dam — R. H. Livesey.....	461	Sand Movement on Coastal Dunes — Joe W. Johnson.....	747
Stabilization of Streambeds with Sheet Piling and Rock Sills — W. M. Linder.....	470	Quantitative Tracing of Littoral Drift — Per Bruun.....	756
Computing Suspended Sand Loads from Field Measurements — A. S. Harrison and H. C. Lidicker.....	484	A Summary of the Production and Scanning of Fluorescent Tracers — P. G. Teleki.....	765
Design Practice for Levee Revetment on West Coast Intermittent Streams — A. P. Gildea...	492	Design and Construction of Rubble-Mound Sea Walls at Santa Cruz, Calif. — O. T. Magoon..	768
Hydraulic Models for Study of River Sedimentation Problems — J. J. Franco.....	508	Discussion — Symposium 3.....	771
Lower Hudson River Siltation — Frank L. Panuzio	512		
Sediment Movement as Defined by Radioactive Tracers: A Preliminary Report — L. L. McDowell.....	550	SYMPOSIUM 4.—SEDIMENTATION IN RESERVOIRS	
Application of Radioactive Tracers in the Study of Sediment Movement — D. W. Hubbell and W. W. Sayre.....	569	Introduction.....	777
Use of Radioisotopes in Sediment Transport Studies — R. S. Cummins, Jr., and L. F. Ingram	578	Sediment Storage and Measurement in the Upper Colorado River Basin — Clyde D. Gessel	778
Use of the Swedish Foil Sampler for Taking Undisturbed Cores of River Bottom Sediments — R. J. Pickering.....	586	Sedimentation in Walla Walla Arm of McNary Reservoir and Its Effect on Recreational Development — M. J. Ord and J. C. Cannon.....	784
Discussion — Symposium 2.....	590	Characteristics of Sediment Deposits Above Channel Structures on Polacca Wash, Ariz. — R. F. Hadley.....	806
SYMPOSIUM 3.—SEDIMENTATION IN ESTUARIES, HARBORS, AND COASTAL AREAS		Reservoir Sedimentation Survey Methods in the U.S. Army Engineer District, Vicksburg, Miss. — O. H. Shamblyn.....	810
Introduction.....	593	Initial Unit Weight of Deposited Sediments — J. M. Lara and E. L. Pemberton.....	818
Importance of Marine Influences in Estuarine Sedimentation — R. E. Burns.....	593	Improved Volumetric Survey and Computation Procedures for Small Reservoirs — H. G. Heinemann and V. I. Dvorak.....	845
Hopper Dredge Disposal Techniques and Related Developments in Design and Operation — L. J. Mauriello and Lewis Caccese.....	598	Determination of Reservoir Deposits by Reconnaissance Methods — G. H. Castle.....	857
Some Engineering Aspects of Disposal of Sediments Dredged from Baltimore Harbor — M. A. Kolessar.....	613	Reconnaissance-Type Reservoir Sedimentation Surveys — A. L. Hill.....	867
Channel Sedimentation and Dredging Problems, Mississippi River and Louisiana Gulf Coast Access Channels — A. B. Smith.....	618	Using Raydist for Sedimentation Surveys on Larger Reservoirs — I. Shepherdson.....	869
Phenomena Affecting Improvement of the Lower Columbia Estuary and Entrance — J. B. Lockett	626	Forecasting Sediment Distribution in a Reservoir by Electronic Computer — Forrest B. Morrow	879
Means and Methods of Inducing Sediment Deposition and Removal — J. W. Harris.....	669	Developing Sediment Storage Requirements for Upstream Retarding Reservoirs — A. F. Geiger	881
Sedimentation in the San Francisco Bay System — B. J. Smith.....	675	A New Method of Estimating Debris-Storage Requirements for Debris Basins — F. E. Tatum	886
Model Tests of Shoaling and of Dredge Spoil Disposal in San Francisco Bay — W. J. Homan and E. A. Schultz.....	708	Measurement of Sediment Density with Gamma Probes — J. Roger McHenry and Paul H. Hawks.....	899
		Sediment Withdrawal Investigation — Guernsey Reservoir — E. A. Jarecki and T. D. Murphy.....	908
		Discussion — Symposium 4.....	926
		List of Attendance.....	930
