SECTION 5. CHANNEL ADJUSTMENTS

Verification of Sediment Transport Functions--	
K. Mahmood, W. G. Dorough and M. I. Haque.....	5-1
Photogrammetric Analysis of Channel Adjustment--	
A. J. Miller.....	5-11
Geomorphic-Hydraulic Simulation of Channel Evolution--	
C. C. Watson, M. D. Harvey and J. Garbrecht.....	5-21
Channel Width Adjustment in Straight Alluvial Streams--	
Carlos V. Alonso and Samuel T. Combs.....	5-31
Predicting Channel Adjustment to Channelization--	
M. D. Harvey, C. C. Watson and J. Bernard.....	5-41
Similarity of Bank Problems on Dissimilar Streams--	
E. H. Grissinger and W. C. Little.....	5-51
Sediment Studies in Grand Canyon, Arizona--	
J. B. Graf, E. L. Pemberton and J. C. Schmidt.....	5-61
Channel Evolution in Modified Tennessee Channels--	
Andrew Simon and Cliff R. Hupp.....	5-71
Vegetation and Bank-Slope Development--	
Cliff R. Hupp and Andrew Simon.....	5-83
Evolution of Two Dredged Channels in Oklahoma--	
Russell R. Schoof, Paul B. Allen and Gene A. Gander.....	5-93
Channel Adjustments of the Lower Colorado River--	
Donald P. McCleary.....	5-103
Alluvial Trend: Notched River Control Structures--	
Karla A. Myers.....	5-113
Channel Adjustments in a Yazoo Bluffline Tributary--	
Joseph B. Murphey and Earl H. Grissinger.....	5-123
Sonar Patterns of Colorado River Bed, Grand Canyon--	
Richard P. Wilson.....	5-133
Channel Adjustments after Passage of a Lahar--	
H. A. Martinson.....	5-143
