

SOUTHERN ASIA

AMS SERIES 1106 SHEET 7

EXPLANATION

- $x \frac{12}{7.9} 196$ x=location, numerator=depth to "M" (km), denominator = P_n velocity (km/sec)
196 represents the index number, (see reference E-1)
- $\frac{15}{-}$ lines along which sections have been compiled, depth to "M" (km) shown adjacent to location mark.
- o permanent seismic detection station
- V P_n velocity (km/sec)
