

# NORTHWESTERN ASIA

Sheet 5 AMS Series 1106 1:5,000,000

MILLER OBLATED STEREOGRAPHIC PROJECTION

## EXPLANATION

x  $\frac{25}{7.9}$  196 x = location, numerator = depth to "M" (km), denominator =  $P_n$  velocity (km/sec)  
196 = index number (see ref. E-1)

— 30 — lines along which sections have been compiled, depth to "M" shown adjacent to location mark

o location of permanent seismic detection station

V  $P_n$  velocity (km/sec)
