

- LEGEND
- P Un differentiated
 - Aku Conglomerates, sandstones, and slates
 - Ake "Great" conglomerate
 - Akm Acidic (including sediments)
 - Ahm Basic
 - Akm Acidic
 - Ahm Basic
 - Ahi Conglomerates, sandstones, shales, limestones, etc.
 - Ahu Basic intrusives (including dikes and sills of various sizes)
 - Ahu Quartzites and slates, including iron-bearing formations
 - Ahm Basic intrusives (including dikes and sills of various sizes)
 - Ahm Basic intrusives
 - Ahi Quartzites and slates, including iron-bearing formations
 - Ahi Acidic intrusives
 - Ahi Quartzites, dolomites, and slates
 - Ahi Un differentiated lower and middle Huronian conglomerates and slates containing a very small amount of iron-bearing formation
 - Ahi Granites and gneisses
 - Ahi Green schists and iron-bearing formations
 - P Un differentiated pre-Cambrian
 - Ahi Un differentiated Huronian
 - Ahi & Ake Un differentiated lower-middle Huronian and limestones
 - Fnd Formation not determined
 - Lss Iron-bearing formations
 - M Magnetic lines
