

Base from U. S. Geological Survey
1:1,000,000 scale map of the United States
now in preparation

TOPOGRAPHIC MAP OF INDIANA
Contours by Frank Leverett

Scale 1:600,000

Contour interval 100 feet

NOTE: The 100-foot contours are based on topographic maps of certain quadrangles by the U. S. Geological Survey, on Ashley's map of part of southern Indiana (Plate I, 27th Report, Indiana Geological Survey), and on railway altitudes supplemented by aneroid readings.
