

TITANIUM
IN THE
UNITED STATES
Exclusive of Alaska and Hawaii
BY THE
UNITED STATES GEOLOGICAL SURVEY

Compiled by
C. L. Rogers and M. C. Jaster

SCALE 1:3,168,000
1962

Type of deposit	Size of deposit			
	Very large deposit - known the estimated total size has 10,000,000 tons of TiO ₂	Large deposit - known size the estimated total size has 1,000,000 tons of TiO ₂	Medium deposit - known size, or size of deposit, size of deposit, production, and/or potential	Small deposit - known size, or size of deposit, size of deposit, production, and/or potential
Sulfate, rutile, or monazite in igneous rocks	•	•	•	•
Concentration in residual or secondary deposits			•	•
Fluorite deposit	■	■	•	•
Other placer materials from sedimentary rocks				•

Large deposit
Small deposit
