## MAP SHOWING OCCURRENCES OF TIN MINERALS IN ALASKA

Compiled by Edwin L. Cruz and Edward H. Cobb

### REFERENCE LIST

The publications listed below provide information about localities where cassiterite or stannite has been found in Alaska. The references for each occurrence are keyed to the numbered localities on the accompanying map. In most instances, the reports(s) cited for each occurrence is a summary of data in older reports and was compiled since 1975; the information supplied is current as of June 1, 1982. Most of the summary reports contain lists of reports used in their compilation. Citations are in standard bibliographic format with the exception that each includes, in parentheses, an abbreviation for the report or map series and the number of the report or map. Abbreviations used are: AOF, State of Alaska Division of Geological and Geophysical Surveys Open-File Report; B, U.S. Geological Survey Bulletin; BMOF, U.S. Bureau of Mines Open-File Report; C, U.S. Geological Survey Circular; MF, U.S. Geological Survey Miscellaneous Field Studies Map; OF, U.S. Geological Survey Open-File Report.
