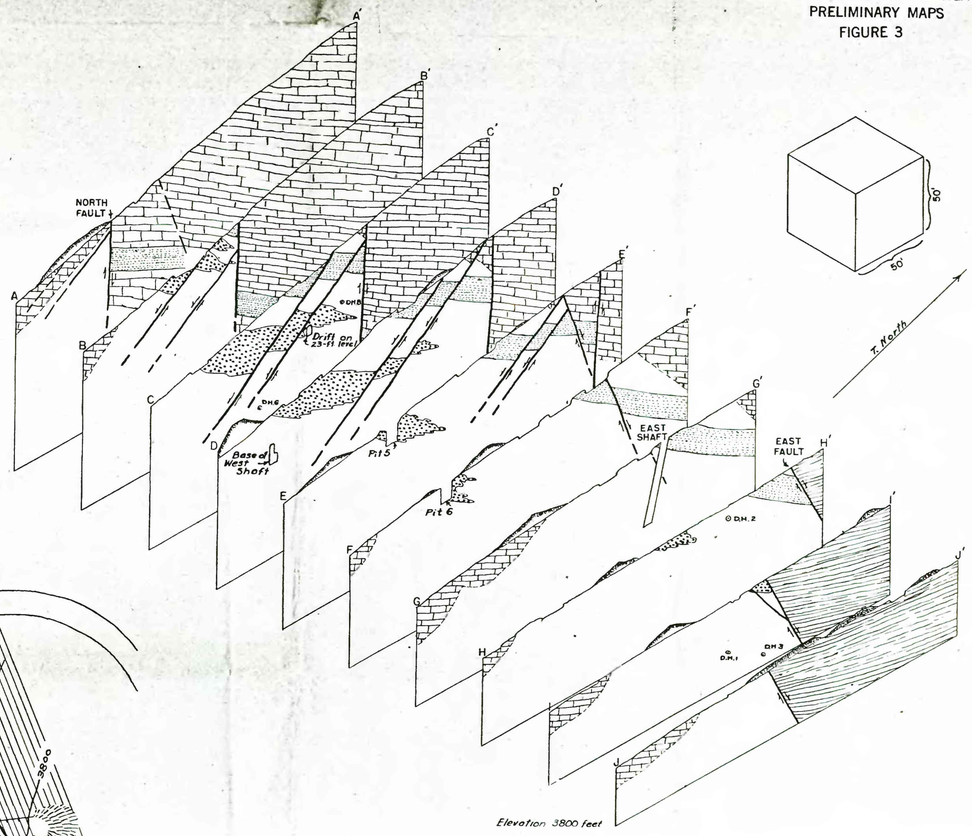
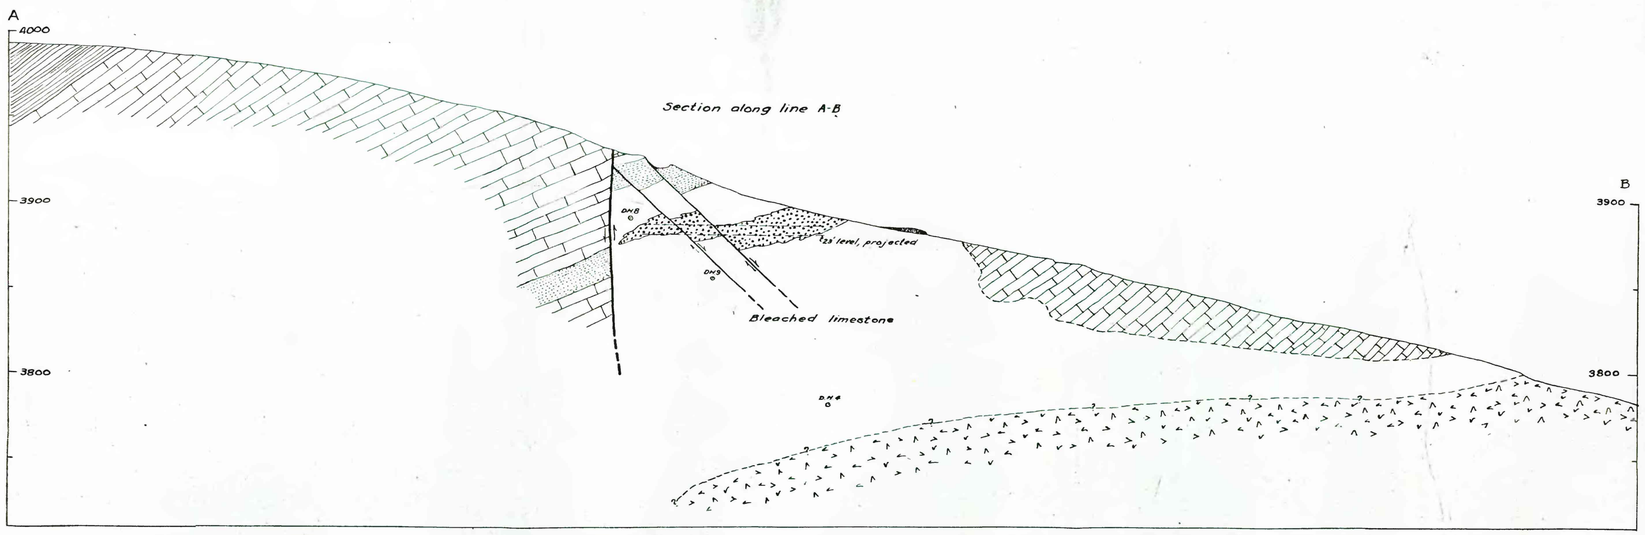
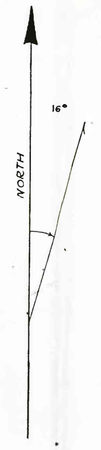
FIGURE 3



ISOMETRIC DIAGRAM SHOWING GEOLOGIC STRUCTURE
OF MEEKE TIN DEPOSIT





EXPLANATION

- Cassiterite-bearing gossan
- Magnetite
- Granite
- Bleached limestone
- Quartzite
- Blue limestone
- Hornfels
- 70° Fault, showing dip
- Projected fault
- 30 Strike and dip of beds
- Contact
- Pit
- Inclined shaft
- Cut
- Dump
- Underground workings
- Diamond drill hole

50 0 50 100 200 Feet

Contour interval 10 feet. Datum approximate sea level.
