PLATE I. GEOLOGIC MAP AND SECTION OF ALBION, NEVADA AND SOUTHWEST PART OF EMMA CLAIMS, ANTIMONY CANYON, GARFIELD COUNTY, UTAH, showing mine workings, sample cuts and distribution of antimony ore.

By D.C. Dunham and W.H. Myers
U.S. Geological Survey
Surveyed in 1941

EXPLANATION

Shale
2. Limestone
3. Sandstone
4. Antimony ore, approximately 0.01 percent
5. Ore, sample holes and lines of 0.01 percent antimony ore
6. Ore, sample holes and lines of 0.05 percent antimony ore

Cut-out
7. Open cut
8. Underground working

Dump
9. Mine dump

Sample holes
10. Sample holes of mine workings
11. Sample holes of underground workings

Scale
1:10,000

Compass interval: 10 feet
Distance approximately true level.
