

EXPLANATION

Contact
(Can be accurately located within 30 feet horizontally)

Contact
(Can be approximately located within 30 to 200 feet horizontally)

Contact
(Cannot be located accurately; probable error greater than 200 feet)

Probable or doubtful contact

Fault
(Dashed where approximately located)

Probable or doubtful fault

High-angle fault
(U, upthrown side; D, downthrown side)

Strike and dip of beds
(Based on field measurement)

Strike and dip of beds
(Based on photo-interpretation)

Strike and dip of joint system
(Based on photo-interpretation)

Strike of approximately vertical joint system
(Based on photo-interpretation)

Spring

Primary road

Secondary road

Trail

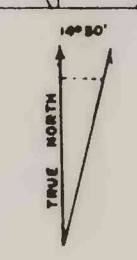

Fence

Note: In the northern parts of this map areas most likely mapped as Organ Rock but are may be the uppermost part of the Organ Rock or the lower part.

Planimetric base map compiled by U. S. Geological Survey from photo-mosaics prepared by Fairchild Aerial Surveys and from other aerial photographs.
