

TOPOGRAPHIC MAP OF CENTENNIAL RANGE
PHOSPHATE DEPOSITS AREA, MONTANA-IDAHO

Showing outcrop of Phosphoria formation B member (see plate 2)
for use as guide to correlation with geologic map, plate 2

Scale 1:12,000
1000 2000 3000 FEET

Approximate mean declination, 1952
Contour interval, 20 feet

Topographic base prepared by enlargement from 1:24,000
multiplex compilation advance sheets, which are being pre-
pared for publication by the Topographic Division, Denver
Office, U.S. Geological Survey.
