NOTE: A. Sections sampled in 1948 are included here for comparison with more detailed study of some sections in 1952. Analyzed 1948 samples can thus be approximately located on the more detailed 1952 sections.
B. P0 content.
C. Location of units in section arbitrary.
D. See plate 2 for location of trenches and outcrops.

EXPLANATION
- Phosphate rock
- Chart
- Limestone
- Dolomite
- Mudstone
- Siltstone
- Sandstone
- Conglomerate
