

29-CC

Each 10' foreshortened
to 8' 9" to compensate
for calculated 29° dip.

Each 10' foreshortened to
9' 3" to compensate for
calculated 22° dip.

Each 10' foreshortened to
9' 8 1/2" to compensate for
calculated 14° dip.

* D.D.H.s. 2, 3, 4 each 1000' apart; scaled at greater intervals to allow space for all data.

This map or illustration is preliminary and has not been edited or reviewed for conformity with Geological Survey standards and nomenclature.
