WELLS DRILLED FOR PETROLEUM IN THE GULF OF ALASKA TERTIARY PROVINCE, SOUTHERN ALASKA

PLEASE REPLACE IN POCKET  
IN BACK OF BOUND VOLUME

Company and well name	Location	Year	Total depth	Section penetrated	Results
<b>KATALLA DISTRICT</b> 1/					
Alaska Steam Coal & Petroleum Syndicate (ASC&PS) (well A)	Head of Katalla Slough	1901	270	Oligocene, Katalla fm.	Abandoned, tools lost. Show of oil
ASC&PS (No. 1)	Katalla field	1902-03	550	do	Discovery well of Katalla field; encountered flow of oil at 366 ft. in 1902. Produced intermittently, 1902-33
ASC&PS (No. 2)	do	1903	about 1,000	do	Oil at 700 ft. Produced intermittently 1912-33
Alaska Petroleum & Coal Co. No. 1 (no. 110)	Near head of Katalla Slough	1903	1,710	do	Abandoned at limit of drilling equipment. Small shows of oil reported
Alaska Petroleum & Coal Co. No. 2 (no. 111)	Katalla River	1903	280	Quaternary unconsolidated deposits	Abandoned
Company not known (No. 102)	East shore of Bering River	1903	580	do	Abandoned
ASC&PS (No. 3)	Katalla field	1904	about 900	Oligocene, Katalla fm.	Produced 1912-33
ASC&PS (well B)	do	1904	not known	do	Not known; probably abandoned at shallow depth
ASC&PS (well C)	do	1904	not known	do	Not known; probably abandoned at shallow depth
ASC&PS (No. 103)	Chilkat Creek	1904	about 400	do	Abandoned, tools lost
ASC&PS (No. 104)	Near mouth of Chilkat Creek	1904	about 650	do	Abandoned, tools lost? Shows of oil and gas
ASC&PS (No. 105)	do	1904	about 800	do	Shows of oil and gas; not tested for production?
ASC&PS (No. 108)	Mitcher Creek	1904	about 1,000?	do	Show of oil; not tested for production
Alaska Petroleum & Coal Co. No. 3 (No. 112)	Near Katalla	1904	about 1,500	do	Abandoned
Clarence Cunningham No. 1 (No. 106)	Near Point Bay	1904	not known	quaternary unconsolidated deposits	Abandoned at shallow depth
Clarence Cunningham No. 2 (No. 107)	do	1904	not known	Miocene or Oligocene, Katalla fm.	Abandoned at depth of several hundred feet
Alaska Petroleum & Coal Co. No. 4 (No. 113)	Near Katalla	1905-06	not known	Oligocene Katalla fm.	Abandoned at depth probably exceeding 1,500 ft.
Rathbun well (No. 101)	West shore of Bering Lake	1905-06	about 1,700	Upper Eocene, Tokun fm?	Abandoned; small flow of gas in 1945
Alaska Petroleum & Coal Co. No. 5 (No. 114)	Near Katalla Slough	1907	1,600	Oligocene, Katalla fm.	Abandoned
Alaska Coal Oil Co. No. 1 (No. 115)	Mirror Slough	1911-17	1,040	Lower Tertiary?	Abandoned. Shows of oil and gas at 700 ft.
Alaska Coal Oil Co. No. 2 (No. 116)	do		272	do	Abandoned
Alaska Coal Oil Co. No. 3 (No. 117)	do		about 250	do	
Amalgamated Development Co. (No. 4)	Katalla field	1912	690	Oligocene, Katalla fm.	Oil between 400 and 500 ft.; produced 1912-1933
Amalgamated Development Co. (No. 5)	do	1912	about 1,000	do	Oil at 650 and 800 ft.; produced 1912-33
Amalgamated Development Co. (No. 6)	do	1912	about 100	do	Abandoned, tools lost
Amalgamated Development Co. (No. 7)	do	1912	645	do	Oil at 300-450 ft.; produced 1912-33
Amalgamated Development Co. (No. 8)	do	1913	about 1,100	do	Small amount of oil between 700 and 800 ft.; produced briefly in 1917
St. Elias Oil Co. (No. 9)	do	1917	1,810	do	Abandoned; small amounts of oil at 650 and 1,000 ft.; gas at 350 ft.
St. Elias Oil Co. (No. 109)	Near Katalla field	1917	1,613	do	Abandoned, caving. Small amounts of oil at 1,050, 1,230, and 1,613 ft.; of gas at 260, 290, 460, and 1,520 ft.
St. Elias Oil Co. (No. 11)	Katalla field	1918	1,130	do	Oil at 490 and 590-1,000 ft.; gas at 380 and 475 ft.; produced 1918-33
St. Elias Oil Co. (No. 12)	do	1918	993	do	Oil at 330, 430, and 590 ft.; produced 1918-33
St. Elias Oil Co. (No. 13)	do	1918-19	900	do	Oil at 635 and 770 ft.; gas at 637 ft.; produced 1919-33
St. Elias Oil Co. (No. 14)	do	1919-20	2,265	do	Abandoned, shows of oil and gas
Chilkat Oil Co. (No. 16)	do	1920	740?	do	Oil at 365, 510 and 740 ft.; produced 1920-33
Chilkat Oil Co. (No. 17)	do	1920	903	do	Produced 1920-33
Chilkat Oil Co. (No. 18)	do	1921	1,000	do	Produced 1921-33
Chilkat Oil Co. (No. 19)	do	1921-22	1,465	do	Produced 1922-33
Chilkat Oil Co. (No. 20)	do	1922	1,202	do	Produced 1922-33
Chilkat Oil Co. (No. 21)	do	1922	1,751	do	Produced 1922-33
Chilkat Oil Co. (No. 22)	do	1923?	1,280	do	Produced 1923?-1933
Chilkat Oil Co. (No. 23)	do	1925	1,160	do	Produced 1925-33
Chilkat Oil Co. (No. 24)	do	1925-26	2,350	do	Abandoned
Chilkat Oil Co. (No. 25)	do	1931-32	2,005	do	Abandoned. Show of gas
Alaskan Gulf Syndicate Johnson No. 1 (No. 118)	Nishawak Mountain	1930	190	do	Abandoned
<b>YAKATAGA DISTRICT</b>					
General Petroleum Corp. Sullivan No. 1	Johnston Creek; south flank of Sullivan anticline	1926-27	2,005	Lower Miocene, upper Oligocene(?), Poul Creek fm.	Abandoned. Shows of oil and gas
Phillips Petroleum Co. and Kerr-McGee Oil Industries, Inc. Sullivan Strat. No. 1	Head of Big River; Sullivan anticline?	1954	4,837	Miocene(?), upper Oligocene, Poul Creek fm., Yakataga fm.?	Abandoned, strong flow of slightly saline water
Phillips Petroleum Co. and Kerr-McGee Oil Industries Inc. Sullivan No. 1	Near head of Little River	1954-55	10,013	Lower Miocene(?), Oligocene, Eocene, Poul Creek fm., Colthith fm.?	Abandoned; shows of oil and gas reported.

1/ Well numbers in parentheses are those adopted by Martin (1921) and extended in later reports (Miller, Rossman and Hickey, 1945; Miller, 1971) on the Katalla district.
