EXPLANATION

Outcrop of Dakota group
(after Burbank and others, 1935)

Line connecting points of equal thickness

Deposited where approximately located

Interval between thickness lines is 50 feet.

Oil or gas field producing from the
Dakota sandstone

Oil pool in the N sand zone of the Dakota sandstone (see sec. 26, T. 11 N., R. 30 W., and sec. 26, T. 11 N., R. 31 W.)

Thickness determined from sample well logs

Base map and oil pools from Petroleum
Information, Inc., Denver, Colo.

Thickness data from compilation cards of Petroleum Information, Inc., Denver, Colo., and from sample logs of the American
Stratigraphic Company, Denver, Colo.
