PLATE I

INDEX

(Index numbers correspond to plate numbers of detailed maps in report)

(2) Northern Jornada del Muerto and adjacent areas. Geology, well and spring data, and contours on the water table, 1957.

(3) Northern Tularosa Basin and adjacent areas. Geology, well and spring data, and contours on the water table.

(4) Carrizozo area. Geology, wells, and altitude of the water table, April 1957.

(5) Three Rivers area. General Geology.

(6) Three Rivers area. Well and spring data and contours on the water table, 1957.

(7) Tularosa – Alamogordo area. Wells, test holes, and the depth to water, 1957.

(8) Tularosa – Alamogordo area. Contours on the water table, 1957.

(9) Tularosa – Alamogordo area. Sulfate content of the ground water, 1957.

(10) Boles well field and vicinity. Wells and test holes, contours on the surface of the bolson fill, contours on the water table, and contours showing sulfate content of the ground water, 1957.

(11) Area southeast of Valmont and north of Orogrande pipeline. Contours on the water table, depth to to water, and sulfate content of ground water, 1956.

(12) Upper Sacramento River Canyon. Wells, springs, and upper part of Orogrande pipeline.

(13) Hueco Plateau area. Well and spring data and approximate direction of movement of ground water, 1957.

(14) Crow Flats – Dell City area. Depth to water and chemical quality of water from wells, April 1956.

(15) Southern Tularosa Basin – Hueco Bolson area. Well and test hole data and contours on the water table, 1957.

(16) Headquarters area, White Sands Proving Ground. Geology, wells, and altitude of the water table, 1954.

(17) West – central Tularosa Basin. Well and spring data and contours on the water table, 1957.

(18) Southern – Jornada del Muerto and Mesilla Valley in the vicinity of Las Cruces. Contours on the water table, depth to water, and wells for which information was obtained, 1947.
