

Plate XII

Explanation For Columnar Sections

Formation Symbols:

Pk = Kaibab Limestone

Pa = Arcturus Formation

Pr = Reipetown Sandstone

Prs = Riepe Spring Limestone

Per = Carbon Ridge Formation

Pe = Ely Limestone

Mj = Joana Limestone

Structure:

fault

Color:

Rock-color chart used, all letter and number symbols followed, but a number of word names modified or changed

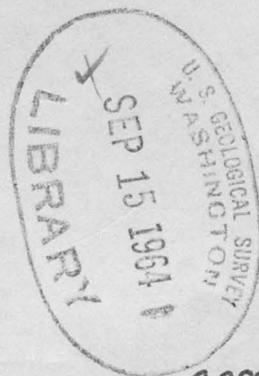

Grain Size:

Noncarbonates; Wentworth scale followed

Carbonates; fine-grained less than 1 mm, medium-grained 1-5 mm, coarse-grained greater than 5 mm

Bedding:

Thin-bed less than 1 foot, medium-bed 1-3 feet, thick-bed 3-5 feet, massive greater than 5 feet
