

BOUGUER GRAVITY ANOMALY MAP OF CLARK COUNTY, NEVADA

By
M. F. Kane and J. E. Carlson

0 5 10 MILES
CONTOUR INTERVAL 5 MILLIGALS

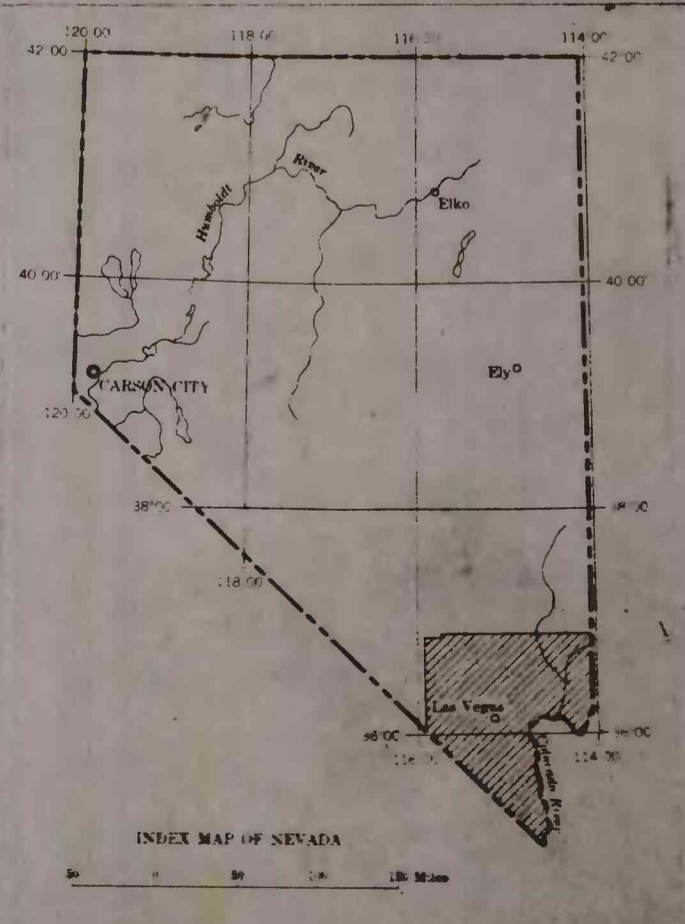

1964

EXPLANATION

- Gravity contours
- Hachured contours indicate areas of low gravity closure
- Dashed where data are incomplete
- Gravity station

NOTE

Gravity values are referred to the Las Vegas, Nevada airport gravity base. A density factor of 2.67 g per cm³ was used in the Bouguer correction. The data are not corrected for terrain effects.
