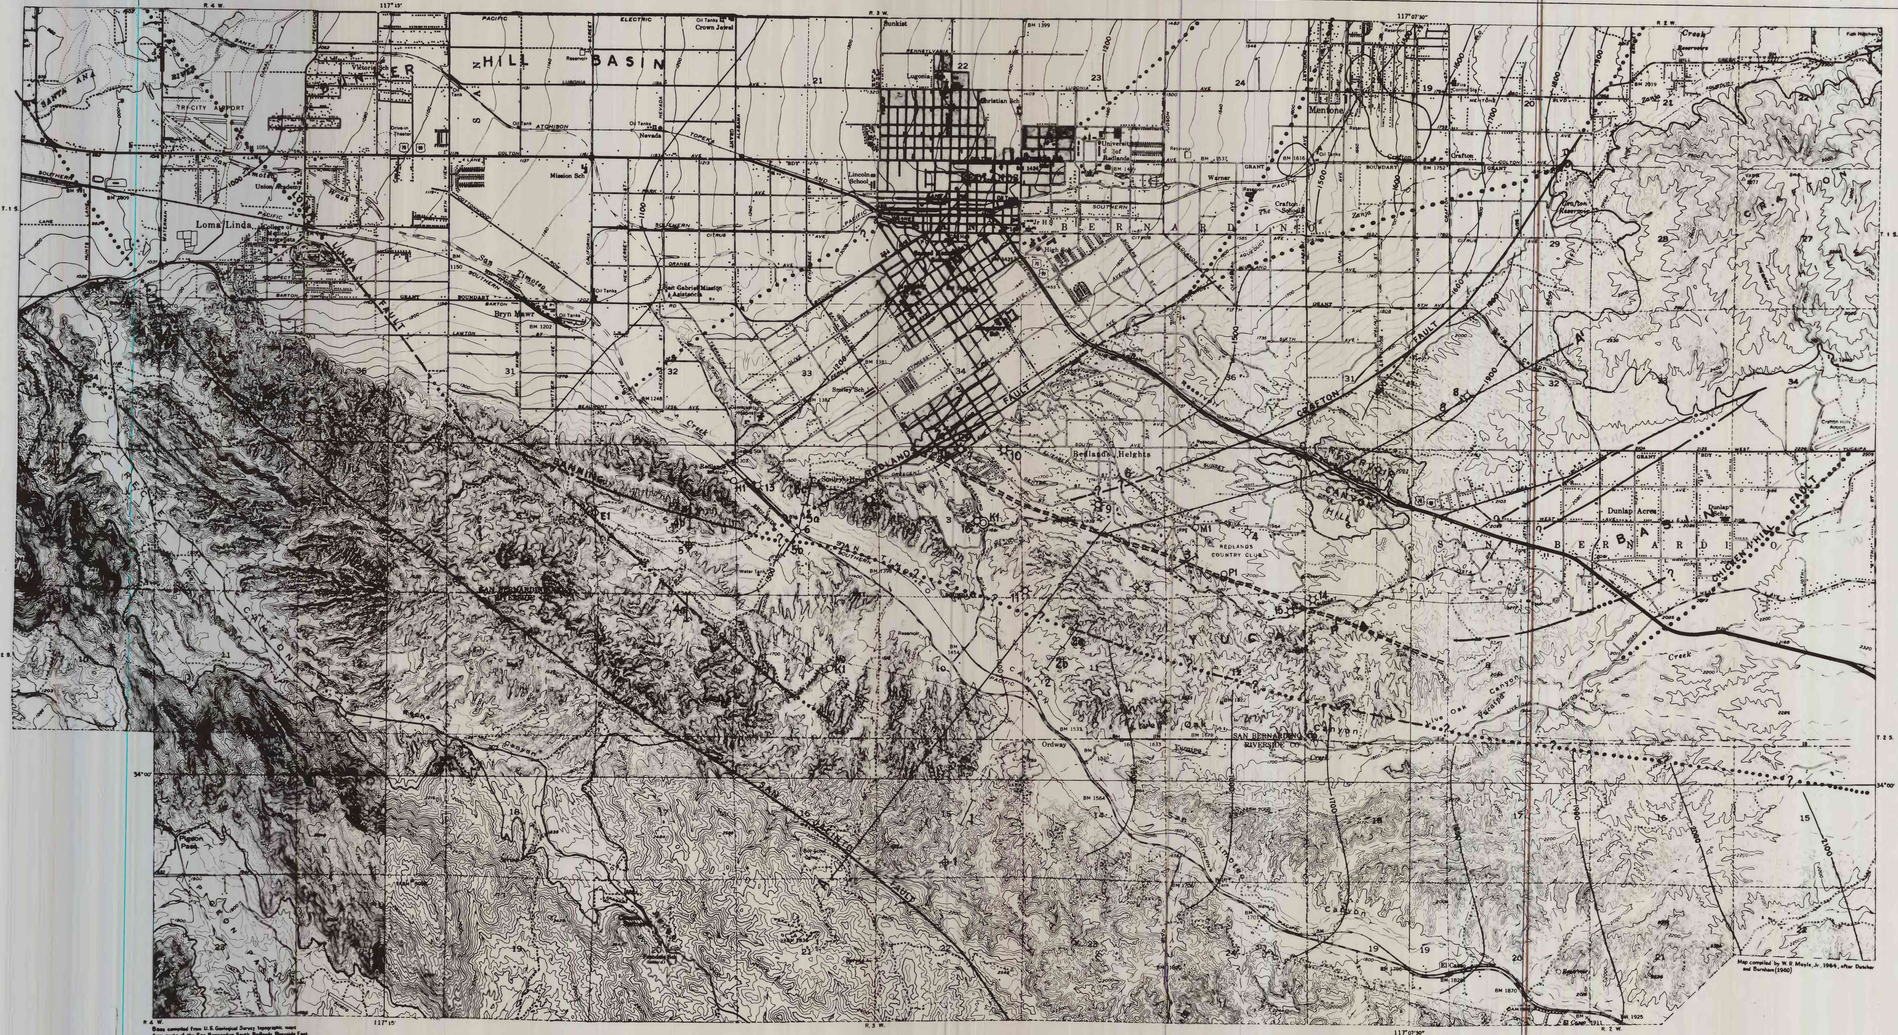
FIGURE 2



MAP OF SAN TIMOTEO-SMILEY HEIGHTS AREA, SAN BERNARDINO AND RIVERSIDE COUNTIES, CALIFORNIA,

showing location of proposed seismic-exploration sites, observation wells, and water-level contours

SCALE 1:24000

1 0 1 2 MILE
1000 0 1000 2000 3000 4000 5000 6000 7000 FEET

EXPLANATION

Area underlain by consolidated rocks above the water level

Fault
Dashed where inferred, dotted where concealed, questioned where doubtful

Doubtful fault
Position and existence to be studied by seismic exploration and test drilling

2a
Proposed geophone spread
Reference number used in text

A — A'
Approximate location of line of section
To be used for estimating ground-water underflow

1500
Water-level contour, 1955
Contour interval is 100 feet

K1
Public supply well

P1
Domestic, test or unused well

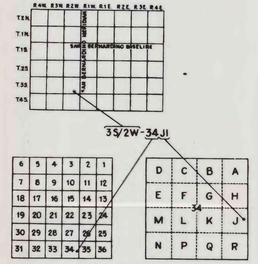
E1
Dry or destroyed well

15
Proposed observation well

1
Proposed seismic shothole to be completed as observation well

2
Proposed seismic shothole

Well-numbering system



For proposed test wells and shotholes serial numbers are used
