Magnetic Map

Magnetics by K. L. Wier, 1964, with Jalander magnetometer. All values are in gammas of vertical intensity relative to a arbitrary datum with zero value of approximately 57,600 gammas.

Magnetic contours showing total intensity magnetic field of the earth in gammas relative to arbitrary datum. Contour interval 200 below a 1000 gammas 1000 above a 1000 gamma contour
Hachured to indicate closed areas of lower magnetic intensity
