For release MARCH 12, 1970

The U. S. Geological Survey is releasing in open files the following reports. Copies are available for inspection in the Geological Survey libraries, 1033 GSA Bldg., Washington, D. C. 20242; Bldg. 25, Federal Center, Denver, Colo. 80225; and 345 Middlefield Rd., Menlo Park, Calif. 94025. Copies are also available for inspection in other offices as listed:

1. Bibliography of reports resulting from U. S. Geological Survey participation in the United States Technical Assistance Program—supplement for 1968-1969, by Wenonah E. Bergquist. 22 p.
2. Principal facts for gravity stations in the Redding and Ukiah AMS sheets, California, by Andrew Griscom. 29 p., including 24 p. tabular material. 504 Custom House, San Francisco, Calif. 94111; 7638 Federal Bldg., Los Angeles, Calif. 90012. [Material from which copy can be made at private expense is available in the San Francisco office.]

The following report, also released in open file, is available for inspection at the U. S. Geological Survey Library 1033 GSA Bldg., Washington, D. C. 20242; and the U. S. Geological Survey, Lamar St. and Franklin Roosevelt Ave., San Juan, Puerto Rico 00936 (GPO Drawer 2230):

3. Geologic map of the Orocovis quadrangle, Puerto Rico, by Reginald P. Briggs. Map, sections, table, index (1 sheet), 3 p. text. Scale 1:20,000.

BIBLIOGRAPHY OF REPORTS RESULTING FROM
U. S. GEOLOGICAL SURVEY PARTICIPATION IN THE
UNITED STATES TECHNICAL ASSISTANCE PROGRAM
SUPPLEMENT FOR 1968-1969

By Wenonah E. Bergquist
U. S. Geological Survey

INTRODUCTION

U. S. Geological Survey Bulletin 1263, by Jo Ann Heath and Nancy B. Tabacchi lists the reports that resulted from a wide variety of geologic and hydrologic investigations, and institutional development programs undertaken by the U. S. Geological Survey and counterpart agencies in 51 foreign countries from 1940-67. This supplementary list, for the years 1968 and 1969, includes geologic and earth-science reports of investigations in 17 countries: Reports on hydrology are not included. Only reports written by U. S. Geological Survey personnel or in collaboration with their local counterparts are included.

The reports are listed alphabetically by country or region. Many of them have been released in limited edition in open files, and many have been published or are in press in host-country government agency journals or in scientific journals. Open files are maintained for consultation in the U. S. Geological Survey Libraries at the following locations: Room 1033, General Services Administration Building, Washington, D. C. 20242; Building 25, Federal Center, Denver, Colorado 80225; and 345 Middlefield Road, Menlo Park, California 94025.
