A List of References
on Lead Isotope Geochemistry

1967-1969

(with an Addendum to the List through 1966)

by

Bruce R. Doe, 1931-
U. S. Geological Survey
Denver, Colorado

228802

(Compiled primarily from Chemical Abstracts, Geophysical Abstracts,
Mass Spectrometry Bulletin, and personal reprint files)

[1971]

This bibliography was constructed to be as complete as possible for terminal papers containing new data relative to the geochemical applications of:

Common lead
U-Th-Pb isotopic dating
Pb- α
Pb²¹⁰, Pb²¹², Pb²¹⁴

No effort was made for completeness of:

Annual reports, Yearbooks, etc.
Review papers

although many are included. Abstracts and theses are omitted.

U.S. GEOLOGICAL SURVEY
(WASHINGTON, D. C.)
20242

[Reports - Open file series]

For release JUNE 23, 1971

The U.S. Geological Survey is releasing in open file the following reports. Copies are available for inspection in the Geological Survey Libraries, 1033 GS Bldg., Washington, D.C. 20242; Bldg. 25, Federal Center, Denver, Colo. 80225; and 345 Middlefield Rd., Menlo Park, Calif. 94025. Copies are also available for inspection at other offices as listed:

1. Geologic map of the Indian Hills quadrangle, Jefferson County, Colorado, by Bruce Bryant, Robert D. Miller, and Glenn R. Scott. 59 p., 2 pl., 1 fig. (Scale 1:24,000). 1012 Federal Bldg., Denver, Colo. 80202; 8102 Federal Office Bldg., Salt Lake City, Utah 84111; Colorado Geol. Survey, 254 Columbine Bldg., 1845 Sherman St., Denver, Colo. 80203. [Material from which copy can be made at private expense is available at 1012 Federal Bldg., Denver.]
- ②. A list of references on lead isotope geochemistry, 1967-1969 (with an addendum to the list through 1966), by Bruce R. Doe. 28 p. [Material from which copy can be made at private expense is available in the Library, USGS, Bldg. 25, Federal Center, Denver.]
3. Geology of the Sargent fault zone in the vicinity of Mount Madonna, Santa Clara County, California, by Robert J. McLaughlin. 1 map, scale 1:12,000, explanation, cross-sections (3 sheets in all). 504 Custom House, San Francisco, Calif. 94111; 7638 Federal Bldg., Los Angeles, Calif. 90012; California Div. Mines and Geology Library, Ferry Bldg., San Francisco, Calif. 94111; and State Office Bldg., 107 So. Broadway, Los Angeles, Calif. 90012. [Material from which copy can be made at private expense is available in the San Francisco and Los Angeles offices of the USGS listed above, and in the Library, USGS, 345 Middlefield Rd., Menlo Park, Calif. 94025.]

Correction to address of depository:

On June 3, 1971, the following was placed in open file, with one of the depositories listed as Woods Hole Oceanog. Inst: Following is the correct listing for the depository in Woods Hole:

Western Gulf of Maine and the southeastern Massachusetts offshore area: sedimentary framework, by R. N. Oldale, Elazar Uchupi, and K. E. Prada. USGS, Albatross St., Woods Hole, Mass. 02543.
