

EXPLANATION

0 40 80 FEET
1" = 40 FEET APPROX.

-  Crest of rim of 'Green Mother' crater
 -  Boundary of mantle of continuous ejecta from 'Green Mother' crater
 -  Boundary fence of crater field
 -  Gravel in green clay matrix
 -  Greenish clay
 -  Reddish-brown silty clay
- Clots of ejecta known to be derived from the 'Green Mother' crater. Size and direction of elongation of blob on map corresponds approximately to size and direction of elongation of clot on the ground.*

DIAGRAMMATIC CROSS SECTION OF 'GREEN MOTHER' CRATER

IVO LUCCHITTA AND J.P. SCHAFER, MARCH 1972
