

72-385

Grid from U.S. Geological Survey  
Delta, 1962, and Richfield, 1962

SCALE 1:250,000

Aeromagnetic survey flown and compiled  
by Scintrex Mineral Surveys, Inc.  
Flown at 9,000 feet barometric elevation

Contour intervals are 10, 20, and 100 gammas.

EXPLANATION

Magnetic contours

Showing total intensity magnetic field  
of the earth in gammas relative to  
arbitrary datum. Hachured to indicate  
areas of lower magnetic intensity.  
Dashed where data are incomplete.

Flight path

Showing location and spacing of data

This map is preliminary  
and has not been edited  
or reviewed for conformity  
to Geological Survey  
standards.

Regional gradient of 9 gammas per mile has been removed
