

EXPLANATION

Magnetic contours  
Showing total intensity magnetic field of the earth in gammas relative to arbitrary datum. Main magnetic field of the earth Fabiano and Peddie, 1969, has been removed. Dashed to indicate closed areas of lower magnetic intensity, dashed where data are incomplete. Contour interval is 100 gammas. Values in thousands of gammas.

Flight path showing location of individual flight lines in areas not described on Sheet 13.
