

EXPLANATION

Magnetic contours
Showing total intensity magnetic field of the earth in gamma's relative to arbitrary datum. Measured to indicate closed areas of lower magnetic intensity. Dashed where data are incomplete. Contour intervals are 50 and 100 gamma's.

Flight path
Showing location and spacing of data

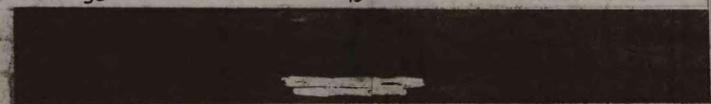

APR 13 1973

Note: A geologic interpretation of this aeromagnetic map is included in King, F. R., and Zietz, Isidore, 1971, Aeromagnetic study of the midcontinent gravity high of central United States: Geol. Soc. America Bull., v. 82, no. 8, p. 2187-2208.

Grid from U.S. Geological Survey

This map is preliminary and has not been edited or reviewed for conformity to Geological Survey standards.

AEROMAGNETIC MAP OF SOUTHEASTERN NEBRASKA AND PARTS OF ADJACENT STATES

Aeromagnetic survey flown and compiled by the U.S. Geological Survey. Flown at 1,000 feet above ground, 1963.
