

EXPLANATION

$\boxed{0.50}$
Average daily pumpage,
in million gallons per day

$\boxed{1.00} \{ \bullet \}$
Combined pumpage of wells
wherever two or more wells
are assigned to pump from
the same finite-difference
grid element

\bullet
Water utility well
(existing or proposed)

\circ
Industrial or public
institution well

$\{ \bullet \}$
(two wells)
Number of wells represented
by well symbol, if more than
one well

A — A'
Line of hydrogeologic section
shown on Figure 14

\bullet
Additional well, used
in hydrogeologic section

Figure 12. Pumpage from the sandstone aquifer during 1970.
