

EXPLANATION

$\boxed{0.50}$
Average daily pumpage,
in million gallons per day

$\boxed{1.00}$ { \bullet
Combined pumpage of wells
wherever two or more wells
are assigned to pump from
the same finite-difference
grid element

\bullet
Water utility well
(existing or proposed)

\circ
Industrial or public
institution well

(two wells)
Number of wells represented
by well symbol, if more than
one well

Figure 20. Estimated pumpage from the sandstone aquifer by 1980.
